DE FLEA

PET SHAMPOO

Kills Fleas on Contact
Also Effective on Ticks & Lice

For use only on Dogs, Cats,
Puppies, Kittens, and Reptiles

CAUTION
KEEP OUT OF REACH
OF CHILDREN
See back panel for additional
precautionary statements
EPA Reg. No. _____
EPA Est. 17721-CAN-01

ACTIVE INGREDIENTS:
Dioctyl Sodium Sulfosuccinate 2.1%
Undecylanic Acid 0.5%
Other Ingredients 97.4%
TOTAL 100.0%

De Flea works through a different mode of action than pyrethrin-based pesticides to kill fleas, ticks, lice and mites. It can be used during animal worming and on very young and nursing animals.

DE FLEA

PET SHAMPOO

DeFlea kills fleas, ticks, lice and mites. It can be used on all puppies and kittens - even nursing animals.

DIRECTIONS FOR USE:
READ ENTIRE LABEL BEFORE EACH USE.

It is a violation of Federal law to use this product in a manner inconsistent with it's labeling.

For the Reasons in which
this pesticide is being
registered, for the
purpose of EPA Act
457294

Section B

For Use on Dogs and Cats:

USE ONLY ON DOGS AND CATS.

1. Apply *De Flea* onto coat of pet. Work shampoo into pet's coat until a lather is formed. Be sure that entire pet is treated, including hard to reach areas such as between paws.
2. Rinse animal thoroughly then dry. When ticks are present, wait 5 minutes before rinsing and drying.
3. Repeat as necessary.

NOTE: It is vital for young puppies and kittens to maintain a normal body temperature. Take precautions to provide a warm environment during and after bathing.

For Use on Reptiles:

De Flea kills mites and other reptile parasites using a different mode of action than pyrethrin-based pesticides.

1. Spray directly on reptile, but not excess (runoff), and all areas where mites may hide. Avoid spraying eyes and facial areas. Alternatively, spray *De Flea* onto a cloth and wipe onto reptile.
2. Reapply as necessary but not more often than at 3-day intervals.
3. Do not treat snakes for at least 6 hours after shedding their skin.

De Flea can be used to clean surfaces of terrariums and other habitats. Spray surfaces with *De Flea* and wipe with clean cloth. Rinse and dry surfaces before reintroducing reptile to habitat. NOT FOR USE ON AMPHIBIANS SUCH AS FROGS AND/OR TOADS.

For Use as a Spray:

1. Spray entire animal, including legs and paws. Stroke the animal's coat against the lay while spraying to make sure the solution reaches the skin. Spray until entire coat is damp.
2. To help solution penetrate to the skin, spray and cork into the coat.
3. Dry with towel, if desired (no rinsing is required).
4. In addition to spraying pet, spray on surfaces and fabrics that may be infested, making sure adequate product is used to saturate areas where fleas may be hiding. Contacting fleas with product is required to achieve results.

STORAGE AND DISPOSAL:
Do not reuse bottle. Rinse thoroughly and offer for recycling.
