Silver Spring, MD 20904

Subject: Label Amendment – to update label language, to add Alternate Brand Name
Product Name: SeaKlear Algae Prevention & Remover for Pools
EPA Registration Number: 45729-5
Application Date: July 9, 2020
Decision Number: 568675

Dear Ms. Griffin:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The new Alternate Brand name SeaKlear Pool Opening & Winterizing Kit has been added to the product record.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3. Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Page 2 of 2
EPA Reg. No. 45729-5
Decision No. 568675

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Emilia Oiguenblik by phone at 703 347 0199, or via email at Oiguenblik.emilia@epa.gov or Eric Miederhoff by phone at 703 347 8028, or via email at Miederhoff.eric@epa.gov.

FIRST AID	
IF SWALLOWED	Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by the Poison Control Center or doctor.
IF ON SKIN OR CLOTHING	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor immediately for treatment advice.
IF IN EYES	Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.
IF INHALED	Move the person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable by mouth to mouth, if possible. Call a Poison Control Center or doctor for treatment advice.
EMERGENCY CONTACT INFORMATION	Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. [You may also contact 1-800-424-9300 CHEMTREC (Domestic, North America) or +1-703-527-3887 CHEMTREC (International, collect calls accepted) for emergency medical treatment information.] <i>{or}</i> [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, and chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

{Environmental hazards statement for end-use products in containers of less than 5 gallons (liquid).}

[ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged in lakes, ponds, or public water.]

{Environmental hazards statement for end-use products in containers of equal to or greater than 5 gallons (liquid).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DOSAGE RATES

EVERY THREE MONTHS: 16 fl. oz. of SEAKLEAR ALGAE PREVENTION & REMOVER FOR POOLS per 10,000 gallons of pool water (or 500 ml per 40,000L) will prevent algae from growing in all pool types.

SEVERE ALGAE TREATMENT: 32 fl. oz. of SEAKLEAR ALGAE PREVENTION & REMOVER FOR POOLS per 10,000 gallons of pool water (or 1 L per 40,000 L).

GENERAL DIRECTIONS

1. Maintain pool water in the pH range 7.2 to 7.8. Total alkalinity 80 ppm to 120 ppm. Adjust pH to 7.2 for severe algae.
2. Ensure that filtration system is working properly.
3. Brush pool regularly.
4. Calculate the volume of SEAKLEAR ALGAE PREVENTION & REMOVER FOR POOLS required for the pool.
5. Add the product directly to pool deep end preferably in front of a water return. Dilute in a bucket of pool water when adding to pools with plaster finishes.

SEAKLEAR ALGAE PREVENTION & REMOVER FOR POOLS must be used along with adequate levels of an EPA registered sanitizer (e.g. chlorine) to control bacteria.

Before draining a treated pool, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool or spa water to any location that flows to a gutter or storm drain or natural water body unless discharge is allowed by state and local authorities.

{Reader's Note: The Storage and Disposal section will immediately follow the Directions for Use on marketplace labels.}

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage: Store in original container. Store in a cool dry place away from the reach of children. Keep container closed when not in use.

Disposal: Non-refillable Container. If empty: Do not reuse or refill this container. Offer for recycling if available. If Partly Filled: Call your local solid waste agency or (1-800-CLEANUP) for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Neither the NC Brands L.P., nor the seller of this product can accept any responsibility where the product is not used according to directions and for the manner in which it was intended.

{Reader's Note: The following Pool Opening Guide and Pool Winterizing Guide text may appear on label when this product, EPA Reg. No. 45729-5, is packaged together with the non-pesticide products SeaKlear Free & Klear and SeaKlear Metal Klear}

[For pools up to 20,000 gallons**] *{For use when sold in quart (32 fl oz) bottles}*

[Treats up to 20,000 gallons**] *{For use when sold in quart (32 fl oz) bottles}*

[Pool Opening Guide:

1. Clean all debris off of pool cover before removing. Remove and store cover.
2. Fill pool water to proper level, midpoint of skimmer opening. Remove any winter plugs, other winterizing equipment and verify there are no water or air leaks in the system.
3. Ensure all equipment is in proper working order. Check pump, filter and all valves and return lines.
4. Balance the water: pH should be 7.2 - 7.6; Total Alkalinity should be 80 -120 ppm. Brush entire pool surface.
5. Apply a chlorine-based pool shock or apply a chlorinating compound (not included) according to the product label instructions. If there is NO visible algae, turn on pump to start water moving through filter.
If there IS visible algae, check with your professional pool dealer for additional steps to remove it.
6. Once pool is full and operational, add 32 fl oz of **SeaKlear Free & Klear** for up to 20,000 gallons. Operate pump and filter for 2 hours to disperse.
7. Add *[insert brand name for EPA Reg. No. 45729-5]* every three months according to label dosage directions for 20,000 gallons of pool water.
8. Run filter for 6 hours.
9. Add 32 fl oz of **SeaKlear Metal Klear** and run filter for 4 hours.
10. Make sure to keep chlorine level at 1 - 4 ppm throughout the season. For alternative systems, ensure that there is a good residual of sanitizer in the water.]

[** Treats above-ground pools up to 31' Round and in-ground pools up to 16' x 24' diving and 18' x 36' non-diving. For pools 12,000 gallons and below, use half the amount of products.]

[Use **SeaKlear Chitosan Clarifer™**, 2 fl oz per 20,000 gallons weekly during pool season for clear pool water.]

[Pool Winterizing Guide:

1. Vacuum and clean the pool thoroughly. Clean all debris from the skimmer and pump baskets and backwash the filter.
2. Balance the water: pH should be 7.2 - 7.6; Total Alkalinity should be 80 -120 ppm.
3. Apply a chlorine-based pool shock or apply a chlorinating compound to the pool (shock not included) according to the product label instructions. Make sure the filter is running.
4. Add 32 fl oz per 20,000 gallons of **SeaKlear Free & Klear** and run pump and filter for 2 hours to disperse.
5. Use *[insert brand name for EPA Reg. No. 45729-5]* (using “Every Three Months” dosage) according to label directions for 20,000 gallons of pool water.
6. Run the pump and filter for at least 6 hours.
7. Add 32 fl oz **SeaKlear Metal Klear** for 20,000 gallons to the swimming pool and run pump and filter for 4 hours.
8. Apply a chlorinating shock according to label directions.
9. Thoroughly clean and inspect your winter pool cover for debris and holes. For extremely cold areas, turn off all equipment; make sure all equipment and piping are free of water to prevent freeze damage. Make sure all timers and lights are shut down. In deep-freeze winter areas, check with your professional pool dealer for recommended best practices, including adding winter plugs, lowering water level, blowing out lines and adding pool anti-freeze.]

[** Treats above-ground pools up to 31' Round and in-ground pools up to 16' x 24' diving and 18' x 36' non-diving. For pools 12,000 gallons and below, use half the amount of products.]
