ACTIVE INGREDIENT	
Orthoboric Acid	98%
INERT INGREDIENTS	
TOTAL	100%

Manufactured by:
BURLINGTON BIO-MEDICAL AND SCIENTIFIC CORP.
100 Fairchild Ave., Plainview, N.Y. 11803

ACCEPTED
JAN 8
Use of this product is limited to the registered user registered under EPA Reg. No. 45735-1

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
CAUTION

May be harmful if swallowed. May cause eye irritation. Avoid eye contact. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT

Immediately contact Physician or Poison Control Center if swallowed. If eye contact occurs, flush eyes with plenty of water. Get medical attention if any irritation persists.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Shake bottle, tilt spout, squeeze bottle to spray under appliances, sinks, furniture, around drains, along all sides of closet shelves, under shelf paper, on ledges, wherever roaches develop paths. Be sure to treat basements, attics and garages.

2. Tap a line of powder by holding bottle horizontally and gently tapping spout on surface to be treated. Put one line of powder in every drawer, around sides and backs of all cabinets and storage shelves, in cracks and crevices behind sinks and toilets. Also treat behind all office furniture and particularly in file drawers.

One pound normally treats an average home of 2,000 square feet. New construction treatment in walls require one pound for every 500 square feet.

STORAGE AND DISPOSAL

Store only in original container, in a dry place inaccessible to children and pets.

Do not reuse empty container. Securely wrap in newspaper and discard in trash.

For best results, ROACH STOPPERS should be used in every room of a building and applied in every place indicated.

HOW DOES ROACH STOPPERS WORK?

Since ROACH STOPPERS is non-repellent, roaches do not avoid it. When they get near it, the electrostatic charged powder clings and is carried back to their nests.

ROACH STOPPERS WILL ALSO CONTROL INFESTATIONS OF SILVERFISH, ANTS, PALETTOS, WATER BUGS.

Keep powder dry! If it gets wet, remove and reapply, to guard against future infestation.

Any powder visible after application must be brushed into cracks and crevices or removed. Apply only in areas inaccessible to children and pets. Do not use in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared, or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed and foodstuffs.

ROACH STOPPERS may be used in homes, restaurants, hospitals, schools, camps, bakeries, supermarkets, factories, nursing homes, day care centers, food processing plants, warehouses, offices, motels, grocery stores, apartment buildings, industrial plants, theaters, ships, boats, trains, mobile homes, zoos, kennels, libraries, military bases & utilities.
