**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive, causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

FIRST AID (PRACTICAL TREATMENT): If swallowed feed gruel, cooked cereal, or bread soaked in milk, followed by olive oil or cooking oil. In case of personal contact, remove excess material and flush skin or eyes with clean water for at least 15 minutes. For eyes get medical attention as soon as possible. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS: Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter, or other chemicals or any foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharges containing this pesticide into public waters. For guidance contact the regional office of the Environmental Protection Agency.

SPECIAL PRECAUTIONS

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint. Introduce this product through the skimmer or in a prescribed feeder to avoid discoloration of liner or paint.
3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If this product is used to shock in superchlorinate a pool after treatment it is important to brush walls and floor to expose algae that may be in cracks, wrinkles that might protect algae from high chlorine residual. Such protected algae will be able to reproduce again when high chlorine residual falls.
6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pool. When adding this product to skimmer make sure pump is on and water is circulating so that material is drawn into recirculation system. Do not allow build up of dry material in skimmer as gases generated may cause an explosion.

**SLOW DISSOLVING
BIG "W"
TABLET**

8 OUNCE

ACTIVE INGREDIENT

Trichloro-s-triazinetrione
2,4,6-Trichloro-1,3,5-triazin-2,4,6-triazinetrione

20 TABLETS NET WEIGHT: 10 lbs.

**KEEP OUT OF REACH OF CHILDREN
DANGER: SEE FIRST AID STATEMENT
AND OTHER PRECAUTIONS ON SIDE PANEL**

1. Adjust water level
2. If the pool is empty, adjust the stabilizer according to the label instructions.
3. These tablets are for use in special feeders.
4. Do not use more than 20 tablets per feeder direction.

Please note acid side on pool water as determined by carbonate test.

STORAGE & DISPOSAL: Store in a cool, dry place. Do not use if container is open flame. If possible, use original container. Rinse material before disposal in approved landfill.

DIRECTIONS FOR USE

Use with water in troughs, buckets, troughs, etc.
This product will improve water quality and prevent
and control algae growth in water troughs, buckets,
etc.

This product is not for use in drinking water troughs
or feeders. It is an algaecide and should not be used
in areas where it will be consumed by animals.

For information on the use of this product, contact
Braco Products Company, P.O. Box 100, St. Louis,
Missouri 63103.

Preparation: The pH of the slow dissolving tablets on the
ground and will tend to reduce the pH and alkalinity of the
pool water. Properly it should be maintained at pH 7.0 to
7.5. Determine by a test kit by periodic additions of a known
quantity of product to the water.

STORAGE & DISPOSAL: Keep in original container, tightly
sealed, in a cool, dry place. Do not store in areas where
children or animals can reach. Do not store in areas where
it will be exposed to direct sunlight. Do not store in
areas where it will be exposed to moisture. Do not store
in areas where it will be exposed to fire.

PRECAUTIONS
DOMESTIC ANIMALS
Be fatal if swallowed. Do not
use in drinking water. Avoid breathing
vapors or face shield and
respirator after handling.
Do not use in drinking water troughs,
buckets, etc. or in areas where
animals may drink. Wash skin or eyes with cold
water. Seek medical attention as soon as
possible.
Do not use in moist or damp
areas. Do not mix with other chemicals.
Do not use in areas where heat
generation of fire.
Keep out of reach of children.
For guidance contact the
manufacturer.
WATER
Hold away from face when
applying. Do not use in
undissolved state and
avoid breathing of the
product. Do not use in
a prescribed feeder.
Always make sure there are
no animals in the water.
Do not take advice
from a dealer.
Do not use in areas where
residuals may be left.
Do not use in areas where
residuals may be left.
