### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### PREVENTING ALGAE

Maintain .2 to .3 ppm of copper. Be sure that the pool has not been treated with copper algaecide recently before determining dosage. For initial treatment add 16 ounces or half of this quart per 15,000 gallons of pool water, by pouring into the skimmer with the pump running. Add the second half of this quart in two months.

#### CURING ALGAE

**Mustard Algae** — Maintain .3 ppm of copper but do not overdose. Be sure that the pool has not been treated with copper algaecide recently before determining dosage. For initial dose add 32 ounces or the total quart for 15,000 gallons of pool water. Add slowly into the skimmer with the pump running.

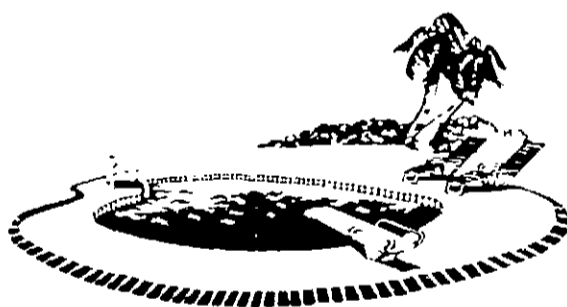

**Black Algae** — Maintain 3 to 4 ppm of copper but do not overdose. Be sure that the pool has not been treated with copper algaecide recently before determining dosage. For initial dose add 32 ounces or the total quart for 15,000 gallons of pool water. Add slowly into the skimmer with the pump running.

**Other Algae Types** — Treat as Mustard Algae.

EPA Reg. No. 45898-17  
EPA Est No. 45898-FL-1

# COPPER ALGAECIDE

## KILLS BLACK and MUSTARD ALGAE

#### ACTIVE INGREDIENT:

Copper as elemental\* ..... 2.0%

INERT INGREDIENTS ..... 98.0%

\*From mixed Copper ethanolamine complexes

KEEP OUT OF REACH OF CHILDREN

### CAUTION

See side/back panels for additional precautionary statements

NET CONTENTS: ONE QUART  
(32 FL OZ./946 L)

#### GENERAL INFORMATION

Copper Algaecide effectively and economically kills algae and prevents its regrowth without requiring pool closing. No waiting - swim immediately.

The increasing of the chlorine level will aid in the quick elimination of algae. Follow the directions carefully.

Caution - do not overdose or exceed 4 ppm as staining, discoloration and water problems can result. Adding directly to the pool can cause straining of the pool walls - add only through the skimmer.

#### PRECAUTIONARY STATEMENTS

##### CAUTION

Hazards to

Humans and Domestic Animals

**COPPER ALGAECIDE** - May cause skin damage. Do not get on skin, eyes or clothing. In case of contact, wash thoroughly. For eyes, wash thoroughly and get medical attention. Harmful if swallowed. If swallowed, call a doctor.

**ENVIRONMENTAL HAZARDS** - This product is toxic to fish. Treated effluent should not be discharged in lakes, ponds or public water.

**DISPOSAL** - Do not reuse empty container. Wrap container and put in trash collection.
