## Rodspray Fly, Cockroach and Ant Killer

**Kills & Repels Ants, Roaches, Flies & Fleas Indoors & Outdoors**

**Use around food, children, pets & fish**

**Kill insects in kitchens, schools, hospitals, apartments, restaurants & food factories**

**Orange Fragrance**

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use caution when walking on hard floors until any applied spray has dried.

**[Two-Way Sprayer:** Turn nozzle to **stream** for crack and crevice applications. Turn nozzle to **spray** for surface applications or to kill flying insects.]

#### Indoors

**Ants, Roaches & Flies:** In a well-ventilated room, with nozzle pointing away from your face, spray to sufficiently wet, kill and then repel crawling ants, roaches and other listed insect pests in homes, restaurants, hospitals, schools, food processing establishments and elsewhere. Spray kitchen cabinets, drawers and closets, under sinks and into wall and floor cracks and crevices. Use in both edible and non-edible product areas of Federally-approved meat, poultry and egg producing establishments. Kill flies and mosquitoes in the air and on all surfaces attracting them using the wide-spray nozzle setting. Reapply as needed.

**fleas:** Before spraying, test a corner of fabric for compatibility. Hold container tilted down away from your face and, using the wide-spray nozzle position, spray with a sweeping side-to-side motion to kill adult fleas hidden in carpets, rugs, dog and cat bedding and under furniture. One pint (16 oz.) will kill fleas on contact over a 200 sq. ft. area. Reapply as needed.

#### **Outdoors**

**Crawling & Flying Pests:** Hold container upright. Spray away from your face sufficiently to wet, kill and then repel crawling ants (including fire ants), roaches, spiders, flies, "no-seeums" and mosquitoes in the air and on surfaces. Thoroughly spray around windows and doors; wet ant trails on sidewalks, paths and buildings; and spray one foot on either side of these areas. Spray ground holes where ants live. Spray garbage cans, dumpsters and manure piles to kill on contact flies, roaches and ants and their eggs, larvae and pupae. Using the narrow-spray nozzle position, standing as far away as possible, spray liquid into hornet, wasp and yellow jacket nests.\* Do not spray plants.

**Barbeques & Picnics: Control Pesky Insects Outdoors:** Lightly spray tables, BBQs, grills, paths and grass a few minutes or so before your party starts and food is served. Spray all surfaces you wish to keep free of flying and crawling insects. Reapply as needed.

\*This product is not registered by the State of California for use against gnats, "no-seeums," wasps, hornets, yellow jackets, flour beetles in food closets, ticks and spiders.

#### **Storage and Disposal**

**Storage:** Store container in a cool, dry place. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

This product has been accepted by the U.S. Department of Agriculture for use according to label directions in official Federal meat, poultry and egg producing establishments.

RECYCLABLE

This product has been accepted by the U.S. Department of Agriculture for use according to label directions in official Federal meat, poultry, and egg producing establishments.

4/5

October 29, 2004

Ms. Sherada Hobgood  
Document Processing Desk – **NOTIF**  
Office of Pesticide Programs – **7504C**  
**U.S. Environmental Protection Agency**  
1801 South Bell Street  
Crystal Mall 2, Room 266A  
Arlington, VA 22202-4501

Dear Ms. Hobgood:

**Subject:** Rod Products Company, Inc.  
Rodspray Fly, Cockroach & Ant Killer  
EPA Reg. No. 45987-2

On behalf of its client **Rod Products Co., Inc.** RegWest Company, LLC is submitting the attached documents as notification of a label revision for subject product and to satisfy the requirement for submission of final printed labeling. RegWest Company will act as sole agent in this endeavor.

1. Application for Pesticide: Other  
Notification Acknowledgement
2. **Reference Label** (illustrates all label revisions)
4. **New Label** (incorporates all label revisions)
5. One copy of final printed labeling

The primary purpose of this notification is to designate certain insects as not approved in California and add a sentence about using caution when hard floors have been sprayed, as illustrated on the **Reference Label**. When I spoke with Dan Kenny on Wednesday (10/27/04) he stated that the two proposed statements were acceptable to him.

Rod Products does not market this product; it is marketed only by subregistrants. Therefore, the final printed label accompanying this notification is that of their subregistrant, EnviroMan, Inc. The label does **not** reflect all approved copy as presented on the EPA stamped accepted label dated September 24, 2004. It does, however, provide a great illustration of the new artwork.

Please contact me at 970-353-0611 or kim@regwest.com if you have any questions or require additional information.

Regards,  
**RegWest Company, LLC**
