Subject: Label Notification per Pesticide Registration Notice 98-10

Dear Ms. Davis:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10, dated September 18, 2009, for EPA Registration Number 45987-2: Rodspray Fly, Cockroach and Ant Killer. The Registration Division (RD) has conducted a review of this request for applicability under PRN 98-10, and finds that the label changes requested fall within the scope of PRN 98-10. The label has been date-stamped "Notification" and will be placed in our records. If you have any questions, please contact me directly at 703-308-8735 or email me at chao.julie@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Julie Anne Chao".

Explanation: Use additional page(s) if necessary. (For Section I and Section II.)

Submit label revision notification per PR Notice 98-10 primarily to exclude insects not approved in California. Refer to the Reference Label for an illustration of all label revisions.

This notification is consistent with the provisions of PR Notices 98-10 and 2007-4 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notices 98-10 and 2007-4 and 40 CFR 152.46 this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

**Except in California

Active Ingredient:

d-limonene	4.015%
Other Ingredients*	95.985%
Total	100.000%

Contains a botanically-derived insecticide

*Contains petroleum distillates

Keep Out of Reach of Children

CAUTION

See back panel for First Aid statements. Read Directions on back panel before using.

Net Contents: ____ fl. oz. [gal(s)] (____ liters)

{Back Panel}

Rodspray Fly, Cockroach and Ant Killer

Kills & Repels Ants, Roaches, Flies & Fleas Indoors & Outdoors
Kill insects in kitchens, schools, hospitals, apartments, restaurants & food factories
Orange Fragrance

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Restrictions: Do not spray plants, animals or food. Use caution when walking on hard floors until any applied spray has dried.

[Two-Way Sprayer: Turn nozzle to **stream** for crack and crevice applications. Turn nozzle to **spray** for surface applications or to **kill** flying insects.]

Indoors

Ants, Roaches & Flies: In a well-ventilated room, with nozzle pointing away from your face, spray to sufficiently wet, kill and then repel crawling ants, roaches and other listed insect pests in homes, restaurants, hospitals, schools, food processing establishments and elsewhere. Spray kitchen cabinets, drawers and closets, under sinks and into wall and floor cracks and crevices. Use in both edible and non-edible product areas of Federally-approved meat, poultry and egg producing establishments. Kill flies and mosquitoes in the air and on all surfaces attracting them using the wide-spray nozzle setting. Reapply as needed.

Fleas: Before spraying, test a corner of fabric for compatibility. Hold container tilted down away from your face and, using the wide-spray nozzle position, spray with a sweeping side-to-side motion to kill adult fleas hidden in carpets, rugs, dog and cat bedding and under furniture. One pint (16 fl. oz.) [This container] will kill fleas on contact over a 200 sq. ft. {or equivalent rate based on container size} area. Reapply as needed.

Outdoors

Crawling & Flying Pests: Hold container upright. Spray away from your face sufficiently to wet, kill and then repel crawling ants (including fire ants), roaches, spiders**, flies, "no-seeums" ** and mosquitoes in the air and on surfaces. Thoroughly spray around windows and doors; wet ant trails on sidewalks, paths and buildings; and spray one foot on either side of these areas. Spray ground holes where ants live. Spray garbage cans, dumpsters and manure piles to kill on contact flies, roaches and ants and their eggs, larvae and pupae. Using the narrow-spray nozzle position, standing as far away as possible, spray liquid into hornet**, wasp** and yellow jacket** nests.
**Except in California

Barbeques & Picnics: Control Pesky Insects Outdoors: To keep pesky insects away, lightly spray tables and outdoor furniture, BBQs, grills, decks and grass a few minutes or so before your party starts and food is served. Do not spray open flames or hot coals [and reapply as needed]. Spray all surfaces you wish to keep free of flying and crawling insects. Reapply as needed.

Storage and Disposal

Storage: Store container in a cool, dry place. **Disposal: If empty:** Non-refillable container; do not reuse or refill this container. Clean container promptly after emptying, then offer for recycling if available; otherwise place in trash. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

This product has been accepted by the U.S. Department of Agriculture for use according to label directions in official Federal meat, poultry and egg producing establishments.

First Aid

If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.
