Authorized agent for Rod Products Co., Inc.

Dear Ms. Davis:

Subject: Rodspray Fly, Cockroach & Ant Killer
EPA Registration Number 45987-2
Submission dated 7/14/2010
Revised label

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy of the label is enclosed for your records.

Submit two (2) copies of the final printed label before you release the product for shipment bearing the revised labeling.

If you have any questions, please contact Rita Kumar at (703) 308-8291, or kumar.rita@epa.gov.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "John Hebert".

Rodspray Fly, Cockroach and Ant Killer

Kills & Repels Ants, Roaches, Flies & Fleas Indoors & Outdoors
May be Used Around Food, Humans and Pets
Kill insects in kitchens, schools, hospitals, apartments, restaurants & food factories
Orange Fragrance

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Restrictions: Do not spray plants, animals or food. Use caution when walking on hard floors until any applied spray has dried.

[Two-Way Sprayer: Turn nozzle to **stream** for crack and crevice applications. Turn nozzle to **spray** for surface applications or to kill flying insects.]

Indoors

Ants, Roaches & Flies: In a well-ventilated room, with nozzle pointing away from your face, spray to sufficiently wet, kill and then repel crawling ants, roaches and other listed insect pests in homes, restaurants, hospitals, schools, food processing establishments and elsewhere. Spray kitchen cabinets, drawers and closets, under sinks and into wall and floor cracks and crevices. Use in both edible and non-edible product areas of Federally-approved meat, poultry and egg producing establishments. Kill flies and mosquitoes in the air and on all surfaces attracting them using the wide-spray nozzle setting. Reapply as needed.

Fleas: Before spraying, test a corner of fabric for compatibility. Hold container tilted down away from your face and, using the wide-spray nozzle position, spray with a sweeping side-to-side motion to kill adult fleas hidden in carpets, rugs, dog and cat bedding and under furniture. One pint (16 fl. oz.) [This container] will kill fleas on contact over a 200 sq. ft. {or equivalent rate based on container size} area. Reapply as needed.

Outdoors

Crawling & Flying Pests: Hold container upright. Spray away from your face sufficiently to wet, kill and then repel crawling ants (including fire ants), roaches, spiders**, flies, "no-seeums" ** and mosquitoes in the air and on surfaces. Thoroughly spray around windows and doors; wet ant trails on sidewalks, paths and buildings; and spray one foot on either side of these areas. Spray ground holes where ants live. Spray garbage cans, dumpsters and manure piles to kill on contact flies, roaches and ants and their eggs, larvae and pupae. Using the narrow-spray nozzle position, standing as far away as possible, spray liquid into hornet**, wasp** and yellow jacket** nests.

**Except in California

Barbeques & Picnics: Control Pesky Insects Outdoors: To keep pesky insects away, lightly spray tables and outdoor furniture, BBQs, grills, paths and grass a few minutes or so before your party starts and food is served. Do not spray open flames or hot coals. Spray all surfaces you wish to keep free of flying and crawling insects. Reapply as needed.

Storage and Disposal

Pesticide Storage: Store container in a cool, dry place. **Product/Container Disposal: If empty:** Non-refillable container; do not reuse or refill this container. Clean container promptly after emptying, then offer for recycling if available; otherwise place in trash. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

{Batch Code/Lot Number will appear either on the label or the container per PR Notice 2007-4.}

4/4

This product has been accepted by the U.S. Department of Agriculture for use according to label directions in official Federal meat, poultry and egg producing establishments.

First Aid

If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.
