Rodspray Indoor-Outdoor Crawling Insect Killer

Kills ants, fleas and spiders indoors and outdoors.
Use around food, children, pets and fish
Kill insects in kitchens, schools, hospitals, apartments, restaurants and food factories
Orange Fragrance

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Two-Way Spray: Press button *very lightly* to get a narrow stream for insects hiding in cracks and crevices. Press *firmly* for a fine mist to spray surfaces where the listed insect pests crawl.

Indoors

To Kill Listed Crawling Pests: In a well-ventilated room, with nozzle pointing away from your face, directly spray pests that you see. May be used in structures such as homes, restaurants, hospitals, schools and food processing

415

establishments. Specific sites where these pests may be found include kitchen cabinets, drawers and closets, under sinks and in wall and floor cracks and crevices. May be used in both edible and non-edible product areas of Federally-approved meat, poultry and egg producing establishments.

To Kill Fleas: Before spraying, test a corner of fabric for compatibility. Hold container tilted down away from your face and with a sweeping side-to-side motion spray carpets, rugs, dog and cat bedding and under furniture. Fleas contacted with the spray will be killed. One 15 oz. container treats 200 sq. ft.

Outdoors

To Kill Listed Crawling Pests Outdoors, Including Barbeque and Picnic Areas: Hold container upright. Spray away from your face sufficiently to wet ants and spiders that you see. Specific areas where you see these pests include outside buildings, windows, doors and sidewalks. Do not spray plants or animals.

Storage and Disposal

Storage: Store container in a cool, dry place. **Disposal:** Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENT

Physical or Chemical Hazards

Contents under pressure. Do not use near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

This product has been accepted by the U.S. Department of Agriculture for use according to label directions in official Federal meat, poultry and egg producing establishments.
