In any event, Kalo's and Seller's liability shall be limited to return of the purchase price. KALO and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Warranty and Conditions of Sale, which may be varied only by agreement in writing signed by a duly authorized representative of KALO.

\*These Conditions of Sale are subject to any applicable contrary governmental restrictions or law.

#### Directions for Use:

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in cool dry place.

Pesticide Disposal: Pesticide, excess treated seed or residue that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

Note to user: Do not use treated seed for food, feed, or oil purposes.

CAPT'N MOLLY is an easy-to-use soybean seed treatment formulated for planter box application. CAPT'N MOLLY is formulated with a non-oil lubricant to help seed flow easily and evenly from the planter box. CAPT'N MOLLY furnishes 1.0 ounce of Captan and related derivatives per bushel to protect against seed and soil-borne diseases, such as seedling blights, damping-off, and seed decay organisms. CAPT'N MOLLY provides 0.2 ounce of molybdenum per acre for plant nutrition and as an aid to the valuable nitrogen fixation process of the soybean plant. Measuring scoop enclosed.

For Planter Box Application

Or For Use On Seed Prior To Placement In Planter Box.

DO NOT USE ANY WATER. Apply CAPT'N MOLLY as a planter box treatment at the rate of 3.8 ounces (3 level SCOOPS) per bushel of soybean seed. Plant soybeans at the rate of one (1) bushel per acre for proper application of molybdenum. Treat half the seed in the planter box with half the required CAPT'N MOLLY and mix thoroughly with a stick or paddle until a uniform color is imparted to all seed. Add the remaining seed and cover with balance of CAPT'N MOLLY. Mix thoroughly as above. Plant as soon as possible. Keep container tightly closed when not in use.

# CAPIN MOLY

PLANTER BOX SOYBEAN SEED TREATMENT  
FUNGICIDE PLUS MOLYBDENUM

NET CONTENTS:  
11 LBS., 14 OZ. (5.39 KG.)
