

7/2 7594-7 1/1/81

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 45994-7	DATE OF ISSUANCE NOV 25 1985
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT MB-103	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Performance Products, Inc.
 P.O. Box 18368
 Louisville, KY 40218

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

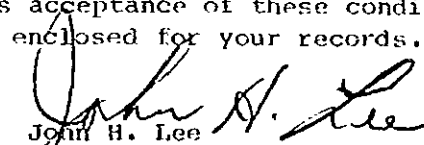

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 45994-7" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

 John H. Lee

MB-103

ACCEPTED
with COMMENTS
in EPA Letter Dated:

NOV 25 1985

ACTIVE INGREDIENT:

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

2-(Thiocyanomethylthio)benzothiazole 30%

INERT INGREDIENTS 70%

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes irreversible eye damage. Causes skin irritation. This product may cause allergic skin reactions. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT: If in eyes, flush with plenty of water. Get medical attention. If on skin, wash with plenty of soap and water. Get medical attention. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Do not use or store near heat or open flame.

NET CONTENTS _____

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the labeling.

COOLING TOWERS: MB-103
cooling tower wood against soft or surface rot and internal staining or painting a dispersion containing 0.5 to 0.7% MB-103 in water onto the clean wood surfaces. The amount applied per 1000 ft.²

rot can also be inhibited by periodic shock doses of MB-103 to the recirculating cooling water at the tower basin or condenser. Provide 1.25 lb. of MB-103 per 1000 gal. of water. Bleedoff should be stopped for 4 to 8 hr. after treatment and repeated every four months.

COOLING WATER: MB-103
bacteria, and fungi in industrial recirculating cooling water. When begun, the system should be cleaned thoroughly to remove biological slime, and other deposits. System should then be flushed with water, and treated with an initial dose of 0.6 to 3.7 fl. oz. MB-103 per 1000 gal. water in the system. Shock doses of 0.6 to 3.7 fl. oz. per 1000 gal. should be made every 1 to 5 days, depending on the extent and severity of microbiological fouling.

DRILLING FLUIDS: To inhibit bacterial and fungal degradation of water-based drilling fluids, MB-103 should be added in concentrations of 0.06 to 0.26% based on the total wet weight of the fluid.

PETROLEUM SECONDARY RECOVERY: MB-103
control sulfate-reducing bacteria, slime-forming bacteria and micellar floods, water disposal systems, and other oil-field water treatment systems. Add 0.6 to 3.7 fl. oz. MB-103 per 1000 gal. of water continuously or intermittently by means of a metering device before or after injection pumps and injection well headers. Control is noticeably fouled, add 0.6 to 3.7 fl. oz. MB-103 per 1000 gal. of water continuously until desired degree of control is achieved.

CUTTING FLUIDS: MB-103
fungal degradation of water-based and water-soluble or emulsifiable concentrates in metalworking operations. It should be added to the cutting fluid at a rate of 1 to 4 times per week, or as needed to maintain control. Intermittent or Slug Method: When system control, add 0.6 to 3.7 fl. oz. MB-103 per 1000 gal. of water. MB-103 can be added to the concentrate before dilution at a rate of 125 to 1500 parts per million MB-103 in the required concentration in the diluted fluid.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Do not expose to extreme temperatures. High. Drums should be opened in well ventilated areas. Leaking drums should be opened in well ventilated areas. Spills should be absorbed in sanitary landfill.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Do not reuse or dispose of any pesticide, spray mixture, or rinseate as a violation of Federal Law by use according to label instructions, contact your State Pesticide Control Agency or the Hazardous Waste representative at your EPA Regional Office. CONTAINER DISPOSAL: Triple rinse (or equivalent). Then puncture and dispose of in a sanitary landfill, or by other procedures approved by local authorities.
