

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

SUNCOAST TRI-CHLOR³ INCH TABLETS

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Suncoast Chemical Company
14480 62nd Street North
P.O. Box 6025
Clearwater, FL 34616

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit, etc. all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 46043-3" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-7's enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 3(d). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Jeff Kempter

KEEP OUT OF REACH OF CHILDREN DANGER PRACTICAL TREATMENT

FIRST AID If swallowed: Drink large quantities of water. Do not induce vomiting. Call a physician immediately.
If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.
If in eyes: Flush with cold water for at least 15 minutes. Call a physician immediately.
If inhaled: Remove person to fresh air. Call a physician immediately.
SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL
NET WT. 5-LBS. [2.27 KG.]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Do not contaminate lakes, ponds or streams by cleaning of equipment or disposal of waste. *UNLESS IN ACCORDANCE WITH AN NPDES PERMIT.*

CHEMICAL HAZARDS: DANGER:

Strong oxidizing agent. Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid contact with flaming or burning material, such as a lighted cigarette. Do not use Suncoast Tablets in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion. Do not permit tablets to contact plastic pool linings or metal objects. Do not throw tablets directly into pool.

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

EMERGENCY HANDLING: In case of contamination or decomposition do not reuse container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

FEATURES

A SOLID GERMICIDE AND ALGAEICIDE THAT DISSOLVES SLOWLY PROVIDING EFFECTIVE LONG LASTING TREATMENT

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STARTUP

When starting up a reopened or freshly filled swimming pool, make sure the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.4-7.6 using Suncoast pH Minus or Suncoast pH Plus as indicated by a reliable test kit. Adjust and maintain total alkalinity at 90-125 ppm based on the test kit results and the label directions on Suncoast Total Alkalinity Plus. Superchlorinate with Suncoast Liquid Chlorine and shock with Suncoast Shock and Swim. Follow label precautions and directions. The next day add Suncoast Conditioner to provide a minimum of 50 ppm of stabilizer. Follow label directions.

DAILY

Adjust the chlorine dispensing rate of the Suncoast floater or in-line feeder to provide 1.0-1.5 ppm of free chlorine residual as determined by a reliable test kit. A suggested dosage is one tablet per 25,000 gallons. This dosage may vary due to unusual conditions such as heavy bather loads, wind, heavy rains and high temperatures; therefore, frequent use of a reliable test kit is recommended. Using the test kit as a guide maintain the pH at 7.4-7.6 and total alkalinity at 90-125 ppm. Suncoast pool chlorinating tablets are intended for use in the Suncoast floater or in-line feeder only. Do not add these tablets directly to the pool or mix with any other chemicals. One tablet weighs approximately 7 oz. (199 grams).

SUPERCHLORINATE USING SUNCOAST LIQUID CHLORINE AND SHOCK WITH SUNCOAST SHOCK AND SWIM. FOLLOW LABEL PRECAUTIONS AND DIRECTIONS.

This package is filled by weight.
Tablet count is approximate.
