JUL - 7 1997

Karen S. McLead
Suncoast Chemicals Company
14480 62nd Street N.
Clearwater, FL 34620

Subject: Suncoast Tri-Chlor 3" Tablet
EPA Registration No. 46043-3
Notification Per PR-Notice 95-2

Dear Ms. McLead:

This will acknowledge receipt of your notification, to correct the active ingredient percentage to coincide with the nominal concentration, submitted under the provisions of FIFRA section 3 (c) 9. Based on a review of the submitted material, the following comments apply.

The application to upgrade the available chlorine statement from 89% to 90% which complies with the source product is acceptable and the notification has been made a part of the records for this file.

Sincerely,

Wanda Y. Mitchell
Notification Coordinator
Regulatory Management Branch II
Antimicrobial Division (7510W)

Section - II

Explanation

In accordance with PR Notice 95-2, our company requires a label change to correct the active ingredient percentage to coincide with the nominal concentration denoted in the Confidential Statement of Formula filed under "RED." The nominal concentration, as defined in §158.153 (i), means the amount of an ingredient which is expected to be present in a typical sample of a pesticide product at the time the product is produced. As indicated in the Confidential Statement of Formula, the nominal concentration is 90%, however our company neglected to make this change to the label. There is no change to the certified limits of the product. Although the Agency may consider this to be a typographical error for which no notification is required, we thought it advisable to inform you through the notification process.

CHEMICALS COMPANY
14480 62nd St. N. Clearwater, FL 34620
(813) 531-8913
IN CASE OF EMERGENCY 1-800-255-3924

FEATURES
A SOLID GERMICIDE AND ALGAEICIDE THAT DISSOLVES SLOWLY PROVIDING EFFECTIVE CHLORINATION.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.
DO NOT HANDLE THIS PRODUCT WITH BARE HANDS. USE GLOVES OR THOROUGHLY WASH YOUR HANDS.
Use at the chlorine dispensing rate of the booster or in-line feeder to provide 1.0-3.0 ppm of free chlorine in the water. The dosage may vary due to unusual conditions such as heavy bather loads, wind, heavy rain, or the use of a reliable test kit is recommended. Using the test kit as a guide maintain the pH at 7.0-7.5 ppm. Pool chlorinating tablets are intended for use in a booster or in-line feeder only. Do not add these tablets to any other chemicals. One tablet weighs approximately 3 oz. (227 grams).

PRECAUTIONARY STATEMENTS
HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

DANGER
Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on face, or on hands. Wear goggles or face shield and use rubber gloves and rinse thoroughly. Clean, dry skin and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD:
This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment.
CHEMICAL HAZARDS: DANGER: STRONG OXIDIZING AGENT.
Use only clean, dry utensils. Mix only with water. Contamination with moisture, dirt, organic matter, pool chemicals, or any other foreign matter may start a chemical reaction with generation of heat, or possible generation of fire and explosion. Avoid any contact with flammable or burning material, such as oil or mix this product with any other product or chemical, such as calcium hypochlorite. Such use may be hazardous.

STORAGE AND DISPOSAL
Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material. Dispose of in several layers of newspaper and discard in trash.

NOTE:
In the event you do not use the entire contents of this package, the remainder must be stored in a container as required by U.S. Federal Government.
