US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 46043-7	DATE OF ISSUANCE 30 SEP 1993
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Spot Out	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Suncoast Chemical Company
 14480 62nd Street N.
 P.O. Box 6925S
 Clearwater, FL 34618

BEST AVAILABLE COPY

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 46043-7."
- b. Revise the first sentence of The Environmental Hazards statement to read: "This product is toxic to fish and aquatic organisms".

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use this product in vinyl or painted pools. Severe algal growth such as black algae is resistant to chlorine levels and most liquid algaecides. This product is an extremely powerful algaecide and bactericide formulated specifically to kill algal growth.

- 1) Before using this product turn off your pool pump and any automatic pool cleaner. Allow the water to remain undisturbed for several hours.
- 2) Before applying, brush algae growth with a pool brush designed specifically for that purpose. Carefully broadcast directly over the algae growth (see chart below). Use care to prevent skin contact with this product. The slow dissolving characteristic of this allows concentrated chlorine to attack the growth and destroy it. **DO NOT USE THE POOL FOR AT LEAST 24 HOURS.**
- 3) Continue to brush algae spots daily. A second application may be required.
- 4) Frequent use of this product may damage pool finish, consult your professional pool dealer.

UNDER NO CIRCUMSTANCES SHOULD THE POOL BE USED DURING TREATMENT. DO NOT USE THIS PRODUCT IN VINYL OR PAINTED POOLS AS DISCOLORATION OF THE FINISH MAY OCCUR.

POOL VOLUME	SPOT OUT
5,000 Gallons	8 ounces
7,500 Gallons	12 ounces
15,000 Gallons	1 1/2 pounds
20,000 Gallons	2 pounds
30,000 Gallons	3 pounds
40,000 Gallons	4 pounds

DANGER: Highly corrosive. Causes eye damage. May be fatal swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previous notifying the sewer plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

in EPA Letter Dated:

20 SEP 1983

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

16013-7

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

PRACTICAL TREATMENT: (First Aid) IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Avoid alcohol. Contact a physician immediately. **IF ON SKIN:** Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. **IF IN EYES:** Flush with cold water for at least 15 minutes. Get medical attention.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Handwritten initials/signature.

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Using a suitable test kit, adjust if necessary, the pH of the pool water to 7.2-7.6.
- Turn off the filter pump before beginning application.
- Do not use pool while it is being treated.
- Sprinkle Suncoast Spot-Out directly over those areas where algae appears. Use up to 1 lb. per 10,000 gallons (12 ppm) of pool water. For severe cases, the dosage may be doubled. The filter pump can be turned on after Suncoast Trichlor has been in the pool for at least 8 hours.
- Brush pool and vacuum.
- Repeat the above treatment if necessary.
- Do not use the pool until the chlorine residual has dropped to 3 ppm or less as determined by a suitable test kit.
- Adjust the pH to 7.2-7.6.
- Maintain the chlorine residual at 1.0-1.5 ppm.

To Determine Pool Capacity - Rectangular Pools:

Multiply length x width x average depth x 7.5 = pool capacity (U.S. gallons).

Round Pools:

Multiply radius (1/2 diameter) x radius x average depth x 23.5 = pool capacity (U.S. gallons).

Additional Pool Care Recommendations: pH - Maintaining pH in the ideal range of 7.2-7.6 is extremely important to the efficiency of your chlorine and swimming comfort. Test for pH often with a suitable test kit. Adjust pH as necessary, using products such as pH Minus or pH Plus.

Precautionary Statements

Hazards To Humans And Domestic Animals

Danger: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

First Aid (Practical Treatment)

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If inhaled: Remove person to fresh air. Call a physician immediately.

If in eyes: Flush with cold water for at least 15 minutes. Call a physician immediately.

If swallowed: Drink large quantities of water. Do not induce vomiting. Call a physician immediately.

Chemical Hazards: Danger:

Strong oxidizing agent. Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of fire and explosion. Avoid any contact with flaming or burning material, such as lighted cigarette.

Storage And Disposal:

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

Emergency Handling:

In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

Suncoast Spot Out

Suncoast Tri-Chlor is a granular product effective against algae.
