Subject:

Suncoast Stabilized Granular Chlorinator

EPA Registration No.: 46043-11 Notification Date: February 13, 2012 EPA Receipt Date: February 22, 2012

Dear Ms. Kollen,

This letter acknowledges receipt of your notification submitted under the provisions of FIFRA section 3(c)9 and PR Notice 98-10.

Proposed Notification

Add alternate brand name: Pool Mate Algae Destroyer

General Comments

Based on a review of the submitted material, your notification to add the alternate brand name, Pool Mate Algae Destroyer is acceptable. A copy of the accepted notification has been inserted in your file for EPA Reg. No. 46043-11.

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-6416 or by e-mail at campbell-mcfarlane.jacqueline@epa.gov or Lorena Rivas by telephone at (703) 305-5027 or by e-mail at rivas.lorena@epa.gov. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Product Manager (34)

Regulatory Management Branch II Antimicrobials Division (7510P)

RE: Notification of Alternate Name Brand EPA Reg. No. 46043-11

Dear Sir or Madam:

Enclosed is a notification requesting an Alternate Name Brand for the primary registration noted below. Included with this application is the EPA form 8570-1.

Primary Registration	EPA#	Alternate Name Brand		
Stabilized Granular Chlorinator	46043-11	Pool Mate Algae Destroyer		
Stabilized Granular Chlorinator	46043-11	Pool Mate Alg		

Should you have any questions regarding this notification, please do not hesitate to call me at (727) 531-8914 ext 1121, or e-mail me at $\underline{kkollen@suncoastchemicals.com}$. Thank you for your assistance.

Sincerely,

Kathy Kollen

EPA Regulatory Manager

CERTIFICATION
For
Suncoast Chemicals Company
Stabilized Granular Chlorinator
46043-11
(and Alternate Name Brands)

This notification is consistent with the provisions of PR Notice 98-10 & EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 USC Sec 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

DIRECTIONS FOR USE 9

down any indoor or outdoor drain.

It is a violation of federal law to use this product in amanner inconsistent with its labeling. This product is designed to dissolve quickly and completely providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION: Broadcast the product evenly over a wide area in the deepest part of the pool with

SHOCK TREATMENT: Adjust pH to 7.2 to 7.4 with a pH increaser or pH decreaser. Follow label directions. Shock treat weekly to kill bacteria, control algae and organic material. As an alternative, add 18 oz. of this product per 10,000 gallons of pool water.

ALGAE CONTROL: If the sides or bottom develop algae spots, follow shock treatment directions above. Immediately after treatment, thoroughly clean pool by scrubbing surfaces of algae growth, vacuum and cycle through filter. If necessary, repeat the treatment. Reentry into treated pool is prohibited above levels of 3 ppm chlorine. ROUTINE CHLORINATION: Throughout the pool season, adjust pH to 7.2-7.6 with a pH increaser or pH decreaser. Follow label directions. Broadcast 3 oz. of this product per 10,000 gallons pool water every other day or as often as needed tomaintain chlorine residual at 2-4 ppm. This quantitymay vary depending on bather load, temperature and other conditions. Reentry into treated pools is prohibited above levels of 3 ppm chlorine. As a preventative treatment, you should shock treat weekly to prevent pool problems whichmay occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, when temperatures are high, in case of colored water, or if algae develops with resulting green color and slimy feeling.
