UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, DC 20460

OFFICE OF  
PREVENTION, PESTICIDES  
AND TOXIC SUBSTANCES

JUL 15 2009

Kathy Kollen  
Suncoast Chemicals Co.  
14480 62<sup>nd</sup> Street North  
Clearwater, FL 33760

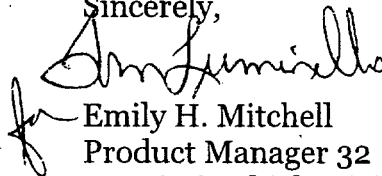

RE: Amendment dated April 29, 2009  
Product Name: Super 70  
EPA Registration Number: 46043-23

Dear Ms. Kollen:

The Agency has reviewed your request for a revised label submitted in accordance with continuing registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA), as amended, and determined the action acceptable. In summary, your request to revise the available chlorine levels, revise the Storage and Disposal statements and make some other minor labeling changes has been reviewed and accepted. A copy of your stamped label is enclosed.

Please submit a finished label for our files. If you have any questions concerning this letter, please contact Tom Luminello at (703) 308-8075, or by e-mail at [luminello.tom@epa.gov](mailto:luminello.tom@epa.gov).

Sincerely,

  
Emily H. Mitchell  
Product Manager 32

Antimicrobials Division (7510-P)

# Suncoast Chemicals Co.

## Super 70

3" Large Chlorinating Tablets

[Marketing claims:]

[Slow-dissolving sanitizer with built-in stain-inhibitor, scale preventative and water softener.]

[Slow-Dissolving Sanitizer]

[Built-in Stain-Inhibitor]

[Built-in Scale Preventative]

[Built-in Water Softener]

[Softens Water]

[Prevents Corrosion and Staining]

[Controls Bacteria and Algae]

[Controls Algae]

[All in One Multi-Purpose Tablets for Pools]

SEE ADDITIONAL [FIRST AID AND] PRECAUTIONARY STATEMENTS ON BACK PANEL

<b>FIRST AID</b>	
<b>IF IN EYES</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
<b>IF INHALED</b>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice.
<b>IF ON SKIN OR CLOTHING</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
<b>IF SWALLOWED</b>	Have person sip a glass of water if possible. Do not induce vomiting unless told to do so by the Poison Control or doctor. Do not give anything by mouth to an unconscious person. Call poison control center or doctor immediately for treatment advice.
<b>HOTLINE NUMBER</b> <b>1-800-255-3924</b>	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact <b>1-800-255-3924</b> for emergency treatment.	
<b>NOTE TO PHYSICIAN:</b> Probable mucosal damage may contraindicate the use of gastric lavage.	

**Active Ingredient:**

Trichloro-S-Triazinetrione\*.....78.6%

**Other Ingredients**.....21.4%

Total.....100%

Available Chlorine.....70%

\* Trichloroisocyanuric Acid Dry

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER.** Corrosive. Causes irreversible eye damage. Causes skin burns. Do not get in eyes, on skin or on clothing. Wear goggles, face shield, or safety glasses. Wear protective clothing, rubber gloves and shoes with socks. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse. Harmful if swallowed or absorbed through skin.

### CHEMICAL HAZARDS

**DANGER.** Strong oxidizing agent. Use only clean, dry utensils. Add only into water. Contamination with moisture, dirt, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and/or explosion. Avoid any contact with flaming or burning material. Do not use this product in any chlorinating device which has been used with any product other than trichloro-s-triazinetriene tablets or sticks as the active ingredient. Such use may cause fire or explosion.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

### METHOD OF APPLICATION:

Use in a floating dispenser, automatic chlorinator or feeder designed for this product or place in skimmer. Use in a new chlorinating device or any device which has previously contained only this product or whose active ingredient is trichloro-s-triazinetriene. If placed in the skimmer, run the pump a minimum of eight hours daily. **DO NOT:** REUSE floaters or feeders from other dry chlorinating products. **DO NOT:** Throw tablets directly into pool. **DO NOT:** Permit tablets to contact plastic pool linings or metal objects. **DO NOT:** Use with any other tablets or sticks in the same skimmer, floater, or feeder. **DO NOT:** Use in any chlorinating device which has been used with other chlorinating compounds.

### WATER BALANCE:

To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.8, total alkalinity from 90 to 125 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all these ranges. Make any necessary adjustments promptly with the appropriate [Suncoast] products.

### ROUTINE CHLORINATION:

Add one tablet per 10,000 gallons of pool water every week or as often as needed to maintain chlorine residual at 2.0 to 4.0 ppm. Follow "Method of Application". This dosage may vary depending upon bather load, water temperature and other conditions. Pool should not be entered until the chlorine residual is 1.0 to 3.0 ppm as measured with a reliable test kit. **Reentry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine.**

As a preventative treatment, you should shock treat your pool once per week to prevent pool problems. In addition to weekly shock treatment, you should shock treat to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae doses develop with resulting green color and slimy feeling.

### SHOCK TREATMENT:

Adjust pH to 7.2 to 7.4 [with Suncoast pH Plus or Suncoast pH Minus] per label directions. Shock treat weekly with a [Suncoast] shocking product to kill bacteria, control algae, burn out organic material and to keep water sparkling clear. Follow label directions.

### ALGAE CONTROL:

If pool surface develops algae or feels slippery, follow shock treatment directions. Immediately after shock treatment, thoroughly clean pool by scrubbing surface of algae growth, vacuum and cycle through filter if necessary, repeat the procedure. Pool should not be entered until the chlorine residual is 1.0 to 3.0 ppm.

{EPA # 46043-23 amendment 4/29/09}

**OPENING YOUR POOL:**

Balance pool water, shock treat, and stabilize your pool using [Suncoast Conditioner]. Then follow "Routine Chlorination" directions.

**STORAGE AND DISPOSAL** {Usage of statements below depend on whether the product is being used for residential or non-residential purposes.}

{For nonrefillable containers – household/residential use}

[Do not contaminate water, food or feed by storage or disposal. Keep product dry in a tightly closed original container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flames.

Nonrefillable container. Do not reuse or refill this container. Triple rinse empty container thoroughly with water prior to disposal. Offer for recycling, if available. If partly filled, call your local solid waste agency or 1-800-CLEANUP (800-253-2687) for disposal instructions. Never place unused product down any indoor or outdoor drain.]

{Nonrefillable container – non-household/residential use}

[Do not contaminate water, food or feed by storage or disposal. Keep product dry in a tightly closed original container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flames.

Nonrefillable container. Do not reuse or refill this container. Triple rinse empty container thoroughly with water prior to disposal. Offer for recycling, if available. If partly filled, call your local solid waste agency or 1-800-CLEANUP (800-253-2687) for disposal instructions. Never place unused product down any indoor or outdoor drain.

Always store pesticides in the original container. If a leaky container must be contained within another, mark the outer container to identify the contents.

Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for Guidance.]

**ENVIRONMENTAL HAZARD**

{For containers 50 lbs. and under:} This pesticide is toxic to fish and aquatic organisms.

{For containers over 50 lbs.:} This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**[TO DETERMINE YOUR POOL CAPACITY IN U.S. GALLONS, USE THE APPROPRIATE FORMULA BELOW (Use measurements in feet only.)**

**RECTANGULAR:**

Length x Width x Average Depth x 7.5 = Total Gallons

**ROUND:**

Diameter x Diameter x Average Depth x 5.9 = Total Gallons
