PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if inhaled. Avoid breathing dust. Avoid contact with eyes or clothing. Wash hands and clothing after use. Avoid contamination of feed and food.

General Precautions

Read all directions before using. Do not apply in any manner not specified on this label.

NOLO BAIT

NOLO BAIT contains a microsporidial pathogen of grasshoppers. It infects the fat bodies of most species of grasshoppers and some crickets. Mortality is greatest to young grasshoppers.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CROP AND RANGELAND

NOLO BAIT is for use in suppressing grasshoppers and Mormon crickets. Apply to crop and rangelands at a rate of 1.0 pounds per acre. A higher rate of application may be used on severe infestations. Applications may be accomplished by hand, seed spreader, turbine spreader, or airplane. Application may be concentrated in areas of heaviest grasshopper infestation.

NOLO BAIT use is advised on densities of 8 or more grasshoppers per square yard. Grasshoppers are most effectively suppressed when they are young. Infection and sickness from this pathogen begins upon ingestion of the bait. For best results apply NOLO BAIT when grasshoppers are 1/2 to 3/4 inch long. Grasshoppers death will begin in 3 to 6 weeks. This pathogen multiplies in sick grasshoppers and will pass from grasshopper to grasshopper and can remain an active suppression agent for several years.

STORAGE AND DISPOSAL

Prohibitions

Do not contaminate water food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

Storage

If not used immediately, store in original container in a cool dry location. Optimum storage temperature 42 F. For best results use before (13 weeks).

Pesticide Disposal

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal site.

Container Disposal

Dispose of empty bag in a sanitary landfill or by incineration, or if allowed by local authorities, by burning. If burned, stay out of smoke.

General

Consult Federal, State or local disposal authorities for approved alternative procedures.
