Systems

BioWay® TCL is a stable, soluble chlorinating sanitizer for dairies, dairy processing plants, and other related areas. The sanitizing solution may be applied by spraying, soaking or recirculation.

USE DIRECTIONS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Dissolve 1 oz. (2 tablespoons) in 10 gallons water for 100 ppm available chlorine solution, or 1 tablespoonful in 5 gallons water.

All equipment, parts and utensils must be thoroughly cleaned before sanitizing. For all utensils and equipment, use 100 ppm solution to sanitize immediately before use. Allow sanitizing solution to remain in contact with surfaces for 2 minutes. Follow the recommendations of your local Health Department.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place.

PRECAUTIONARY STATEMENT

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. Harmful or fatal if swallowed. Wash thoroughly with soap and water after handling. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse. Read and understand Material Safety Data Sheets before using.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT:

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not re-seal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

STATEMENT OF PRACTICAL TREATMENT

- If Swallowed: Drink promptly a large quantity of water. Do not induce vomiting. Avoid alcohol. Get medical attention.
- If in Eyes: Flush with plenty of water for 15 minutes. Get medical attention.
- If on Skin: Wash with plenty of soap and water. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
