BioWay® TCL™ is a stable, soluble, chlorinating sanitizer for dairies, dairy processing plants, and other related areas. The sanitizing solution may be applied by spraying, soaking or recirculation. Available Chlorine - 12.50%

### USE DIRECTIONS

*It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.*

Dissolve 1 oz. (2 tablespoonfuls) in 10 gallons water for 100 ppm available Chlorine solution, or 1 tablespoonful in 5 gallons water. All equipment, parts and utensils must be thoroughly cleaned before sanitizing. For all utensils and equipment, use 100 ppm solution to sanitize immediately before use. Allow sanitizing solution to remain in contact with surfaces for 2 minutes. Follow the recommendations of your local Health Department.

### STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

### PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

### DANGER - PELIGRO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

**Highly Corrosive.** Causes skin and eye damage. Harmful or fatal if swallowed. Wash thoroughly with soap and water after handling. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse. Read and understand Material Safety Data Sheets before using.

PC S000Yas  
Rev. 05.03

### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### PHYSICAL AND CHEMICAL HAZARDS

**Strong Oxidizing Agent.** Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

### FIRST AID

#### If on skin

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

#### If in eyes

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor immediately for treatment advice.

#### If swallowed

- Call a poison control center or doctor immediately for treatment advice.
- Drink large quantities of water.
- Do not induce vomiting unless told to do so by poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

#### If inhaled

- Move person to fresh air. In not breathing, give artificial respiration, preferably mouth to mouth.
- Call a poison control center or doctor immediately for treatment advice.
