	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT Bio-Guard I ^o -RAX Special	

NAME AND ADDRESS OF REGISTRANT (Includes ZIP code)

Safeway Industries, Inc.
 3372 North Holton Street
 Milwaukee, WI 53212

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

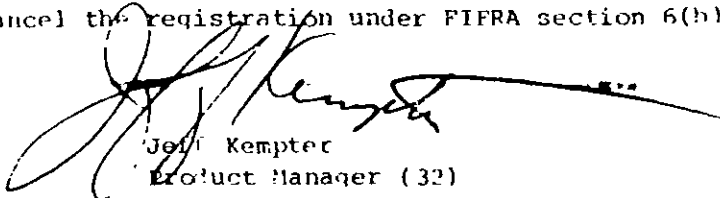

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving ~~the registrant~~ a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the General Registration Standard - "Guidance for the Registration and Reregistration of Pesticide Products Containing Sodium or Calcium Hypochlorite as the Sole Active Ingredient"--issued February 1986 and revised April 1986, EPA has reregistered the product listed above in accordance with FIFRA section 3(g). EPA has also reviewed your response to the Sanitizer Label Improvement Program issued July 25, 1986 and has determined that your product is in compliance with the program.

Your amended label has been stamped approved and a copy is enclosed. You must incorporate any comments noted on your label. This label must be on products released for shipment within 1 year or by the next label printing, whichever occurs first. This label must also appear on all supplemental registrations within 1 year of this Notice of Reregistration or at the next label printing, whichever occurs first.

Your product meets the criteria for reregistration under this Standard. Failure to comply with this Standard may result in the Agency's issuance of a Notice of Intent to Cancel the registration under FIFRA section 6(b)(1).

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

	Chlorine Solution	To Prepare, Dissolve
USE	100 ppm	½ level tsp LO-BAX in 3 gals. water
SOLUTION	200 ppm	1 level tsp LO-BAX in 3 gals. water
CHART	300 ppm	1½ level tsp LO-BAX in 3 gals. water
	600 ppm	3 level tsp LO-BAX in 3 gals. water

tsp = teaspoon = 1/8 oz. lbs. = tablespoon = 1/3 oz.

Prepare solutions fresh for each use. Use clean plastic, glass or stainless steel containers and potable water. Do not reuse solutions. Use a chlorine test kit to measure available chlorine in solutions. **IMPORTANT!** LO-BAX is a sanitizer. ALWAYS, pre-clean surfaces with a detergent and thoroughly rinse with potable water before sanitizing with LO-BAX solutions. Allow at least 2 minutes contact with sanitizing solution, unless directions state differently. Drain all food contact surfaces thoroughly before use when using 100 ppm and 200 ppm solutions. Rinse all food contact surfaces before use when applying solutions stronger than 200 ppm.

FARM DAIRY SANITATION: Bulk tank and utensils (pails, strainers, milking machines, mixing machines) Use 200 ppm solution before use. **Pipeline Milkers - 1.** Flush Method: Draw 100 ppm solution through teat cup units. **2.** Circulation Method: Circulate 100 ppm solution for 5 minutes. Keep chlorine reading above 50 ppm.

FOOD PLANT EQUIPMENT: Flow Method: Flow 100 ppm solution through equipment. Keep chlorine above 50 ppm. Spray Method: Spray 200 ppm solution to walls, tanks and coolers. Surfaces must be wet for 2 minutes. Non-food contact surfaces: Use 600 ppm solution on walls, floors, woodwork, etc. Do not treat surfaces damaged or bleached by chlorine - wall coverings, fabrics, clothing, etc.

Restaurants, Taverns, Bars: Glasses, mugs, dishes, flatware - Wash and rinse. Immerse in 100 ppm solution for 2 minutes. Keep chlorine above 50 ppm. Drain well.

in EPA Letter Dated:

SEP 16 1988

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide
registered under EPA Reg. No.

Miscellaneous counter tops, tables, sandwich and drain boards, refrigerators and other equipment. Sanitize with 300 ppm solution by wiping with a clean cloth or by flushing. To keep bar towels and wiping cloths white and sanitary, wring clean 200 ppm solution.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.

Contact manufacturer for brochure on the following additional EPA registered uses for this product: sanitizing wells, cisterns, water storage tanks, use in bulk manufacturing, controlling slime in cooling tanks.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS. STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, and other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.
