# Jobe's Spikes

Jobe's  
10 Insecticide  
Fertilizer Spikes

Systemic  
**INSECTICIDE** with 12-18-6  
Fertilizer

For  
**Roses**

**ACTIVE INGREDIENT:**  
Disulfoton 0,0 - Diethyl S - [2-(ethylthio) ethyl] phosphorodithioate ..... 1%  
**INERT INGREDIENTS** ..... 99%  
Total 100%

**CAUTION:**  
KEEP OUT OF REACH OF CHILDREN  
SEE BACK PANEL FOR ADDITIONAL INFORMATION

Contains DI-SYSTON®

**NET WT.**  
16oz. (1lb.)

**Insecticide/Fertilizer Spikes  
for Roses**  
Patented

F1262-1010  
**12-18-6**  
Net. Wt. 16 oz. (1lb.)

**Guaranteed Fertilizer Analysis**

Total Nitrogen (N)*	12%
12% Ammoniacal Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> )*	18%
Soluble Potash (K <sub>2</sub> O)*	6%
Derived from Ammonium Sulfate, Diammonium Phosphate, Potassium Chloride.	
Chlorine (Cl) not more than	8%
* The nitrogen, phosphorus, and potassium materials in this product provide 8.7% occluded slow release nitrogen (N), 13.8% occluded slow release Available Phosphate (P <sub>2</sub> O <sub>5</sub> ), and 4.6% occluded slow release soluble potash (K <sub>2</sub> O).	

Jobe's® Insecticide/Fertilizer Spikes protect your roses from insect pests for up to two months, while feeding them a special nutrient formula designed to help them look their best. Jobe's Spikes gradually release a systemic insecticide which is absorbed by the roots and circulated throughout the plant to control Aphids (Plant Lice), Spider Mites, Borers, Scales, Mealybugs, Leaf Miners, Leaf Hoppers, Whiteflies, Pine Tip Moths, Lace Bugs, and Webworms. At the same time, Nitrogen (for fast growth), Phosphorus (for abundant blooming), and Potassium (for disease-resistance) are safely, continuously released. And unlike powders or sprays which are applied to the foliage, Jobe's Spikes work at the roots where they can't be washed off by rain or watering.

- Protects and feeds for up to 8 weeks
- Works inside the plant - can't wash off
- Premeasured dosage - no guessing
- Easy to use - no mixing, spraying, or mess

**DIRECTIONS**

For Outdoor Use Only. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To open lid, pry open with screwdriver or similar object. Replace lid thoroughly by pressing around lid. FOR BEST RESULTS, INSERT NEW SPIKES EVERY SIX TO EIGHT WEEKS, beginning in early spring when new growth begins and continuing throughout the summer insect season. If soil is dry, water well before application. Using a hammer and the plastic cap, tap spikes into the soil evenly spaced in a circle 10" to 12" from the main stem. Remove cap once spike is below ground, and hammer spike about an inch below the soil. Wear gloves. Use of protective eyewear is suggested.

If Plant Height is (ft.):	1-2	3-4	5-6	For Climbing Roses: Use 1 spike for each 2 feet of height.
Use This Many Spikes:	2	3	4	

**STORAGE AND DISPOSAL:** Store only in original container in a cool, dry place inaccessible to children and pets. Do not reuse original container. Securely wrap original container in several layers of newspaper and discard in trash. Do not store in living areas of the home.

**PRECAUTIONARY STATEMENT: HAZARD TO HUMANS AND DOMESTIC ANIMALS.**  
**CAUTION:** Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep children and pets away from treated plants. Do not use on or around fruit trees or vegetable plants.

**Statement of Practical Treatment:** If swallowed, call a Physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting. If on skin, wash affected areas with soap and water. If in eyes, flush with plenty of water. Get medical attention if irritation persists.

**Note to physicians:** Disulfoton is an organophosphate insecticide. If symptoms of cholinesterase inhibitors are present, atropine sulfate by injection is antidotal. P-PAM is also antidotal and may be administered, but only in conjunction with atropine.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish, wildlife, and birds. Keep out of any body of water. Do not contaminate water when disposing of equipment wash water.

**NOTICE:** User assumes all responsibility for safety and use not strictly in accordance with directions and warnings.
