**GUARANTEED FERTILIZER ANALYSIS**

Total Nitrogen (N).....4%

0.5% Ammoniacal Nitrogen

0.5% Nitrate Nitrogen

3.0% Water Insoluble Nitrogen

Available Phosphate (P<sub>2</sub>O<sub>5</sub>).....2%

Soluble Potash (K<sub>2</sub>O).....2%

Derived from: Ureaform, Diammonium

Phosphate, Potassium Nitrate.

Chlorine (Cl) not more than...0.2%

The nitrogen, phosphorus and potassium materials in this product provide 2% occluded slow release nitrogen, 1% occluded slow release available phosphate and 1% occluded slow release soluble potash.

**STORAGE AND DISPOSAL**

**STORAGE:** Store only in original container in a cool, dry, place inaccessible to children and pets.

**DISPOSAL:** Do not reuse container. Wrap and discard in trash.

**PRECAUTIONARY STATEMENT**

Hazards to Humans and Domestic Animals.

**CAUTION**

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep children and pets away from treated plants. Do not use on or around fruit trees or vegetable plants.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting.

**IF ON SKIN:** Wash affected areas with soap and water.

**IF IN EYES:** Flush with plenty of water. Get medical attention if irritation persists.

**NOTE TO PHYSICIAN:** Disulfoton is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

**ENVIRONMENTAL HAZARDS**

This product is toxic to wildlife, fish and birds. Keep out of any body of water. Do not contaminate water when disposing of equipment wash water.

For Potted Plants & Hanging Baskets

Jobe's® Insecticide Spikes with Fertilizer protects your potted plants and hanging baskets from insect pests for up to two months, while feeding them a special nutrient formula designed to help them look their best. Jobe's® Spikes gradually release a systemic insecticide which is absorbed by the roots and circulated throughout the plant to control aphids (plant lice), spider mites, borers, scales, mealybugs, leaf miners, leaf hoppers, whiteflies, pine tip moths, lace bugs and webworms. At the same time, Nitrogen (for fast growth), Phosphorus (for abundant blooming), and Potassium (for disease resistance) are safely, continuously released. And unlike powders or sprays which are applied to the foliage, Jobe's® Spikes work at the roots where they can't be washed off by

rain or watering.

- Controls insects and feeds for up to 8 weeks
- Works inside the plant - can't wash off
- Premeasured dosage - no guessing
- Easy-to-use - no mixing, spraying or mess

**IMPORTANT:** Read directions before applying.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read directions carefully, use only accordance with label warnings and directions. Wearing a protective glove, push each spike into the soil near the edge of the pot until the spike is completely below the soil surface. Water the pot thoroughly.

**Bedding Plants:** Use 2 spikes per square foot of your flower bed, or 1 spike per plant, applied no closer than 3" from the stem. Push spikes completely under the soil and water immediately. Repeat application at 6 to 8 week intervals.

**Recommended Applications for Potted Plants and Hanging Baskets**

Pot Diameter (inches)	Number of spikes
6	1
8	2
10	3
12	4
