wes water engineering services, inc. ☺

22 EAST BUCHANAN STREET • PHOENIX, ARIZONA 85004

PHOENIX (602) 252-5198 • TUCSON (602) 299-3966 • LAS VEGAS (702) 399-3511 • LOS ANGELES (714) 592-2649

ACTIVE INGREDIENT: Potassium dimethyldithiocarbamate 10.0%
 INERT INGREDIENTS 90.0%

This product contains 0.87 lb. of active ingredient per gallon and weighs 8.68 lb.

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMAN AND DOMESTIC ANIMALS

DANGER: Causes eye damage and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: *In case of contact*, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. *If product gets in eyes*, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. *If product is swallowed*, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonful (10 ml.) of ipecac syrup or 1 teaspoonful (5 ml.) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonoily demulcent. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

CT-2460 is used in industrial and/or commercial recirculating cooling tower systems and industrial air-washing systems to control microbiological slime. Prior to the use of CT-2460 in industrial and/or commercial recirculating cooling tower systems, systems should be cleaned to remove algae growth, microbiological slime, and other deposits. Then make an initial slug addition of 12.0 to 17.9 fl. oz. of CT-2460 per 1000 gal.

of water to provide 100 to 150 ppm of CT-2460, based on total weight of water in the system dosage until control is evident. Make subsequent slug addition of 6.0 to 17.9 fl. oz. of CT-2460 of water (50 to 150 ppm CT-2460) every 2 to 5 days or as needed. The frequency of addition is the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of recirculating cooling tower systems.

CT-2460 is used in industrial air washing systems which maintain effective mist-elimination. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug addition of 28.1 to 35.9 fl. oz. of CT-2460 per 1000 gal. of water is recommended. Repeat initial dosage is evident. Subsequent slug additions of 21.0 to 35.9 fl. oz. of CT-2460 per 1000 gallons of water should be employed every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the bacterial problem. Slug additions should be made in the sump collection trays of the airwash system.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open flame is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or rinsate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides, or buried in a trench away from water supplies.

CONTAINER DISPOSAL:

METAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose in an approved landfill, or bury in a safe place.

PLASTIC: Containers under 30 gallons must not be reused but should be triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposed of in a landfill or buried in a safe place.

GENERAL: Consult Federal, State, or Local disposal authorities for approved alternatives.

The manufacturer does not assume responsibility for any misuse or unintended use.
