DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use strictly in accordance with label cautions and directions.

some as

46515-10

READ ENTIRE LABEL. Keep this product in original container. Do not put into food or drink containers. Do not apply on or around plants to be used for food or feed. Do not contaminate domestic or irrigation water supply.

SUPER K-GRO VEGETATION KILLER is a ready to use, non-selective herbicide that top kills weeds and grasses on contact. Its phytotoxic properties are quickly inactivated on contact with soil. It will not stain paved or graveled areas. Apply as directed to control unwanted vegetation around shrubs, trees, buildings, patios, in brick and gravel walks, and next to fences, driveways, sidewalks, curbs and gutters.

HOW TO APPLY: Adjust the nozzle to desired spray pattern and thoroughly cover unwanted vegetation. For edging around fences, lawns, sidewalks and top killing vegetation around shrubs, trees and buildings hold the sprayer 2 to 6 inches from the area to be treated. Avoid contact with skin or clothing. Be sure that all undesirable vegetation is thoroughly covered with the spray. For spot treating, aim the trigger so that the spray hits only the area to be treated.

APPLY ONLY WHEN AIR IS CALM TO AVOID SPRAY HITTING ANY DESIRABLE FOLIAGE. Be careful that spray does not hit green bark, broken bark, buds or leaves of desirable plants. Do not track from treated areas to untreated areas.

For best results, apply during warm, sunny weather. Sunlight and temperatures about 80 F accelerate the destruction of treated vegetation. However SUPER K-GRO VEGETATION KILLER can be applied anytime during the growing season. Under warm, sunny conditions wilting will occur in 1 to 3 days and complete browning in 5 to 7 days. Hard to control perennial weeds such as Bermudagrass and Dallisgrass will require more than one application to give control of top growth.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Keep children and domestic animals off treated areas until this herbicide has been washed into soil. Avoid contact with skin, eyes and clothing. Do not breathe spray mist. Wash hands well after using. May be harmful if swallowed.

FIRST AID: If SWALLOWED: Induce vomiting and call a physician at once.

NOTE TO PHYSICIAN: Emergency Information - call 1-800-858-7378.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.
