

**SYSTEMIC WEED & GRASS KILLER**

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS & DOMESTIC ANIMALS  
CAUTION**

Do not contaminate food stuffs or feed. Keep children and pets off treated areas until spray is thorough, dry. Avoid contact with eyes. Immediately flush eyes with plenty of water for 15 minutes if contact does occur. If irritation persists seek medical attention.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Weed & Grass Killer is a non-selective herbicide that kills plants systemically. Systemic action means the spray mist is absorbed by plant foliage and is trans-located from leaves and stems down to roots to kill reproductive plant parts and prevent regrowth. When used as directed it will kill undesirable weeds & grasses around trees, shrubs, buildings, fences, patios, brick & gravel walks, and along fences, sidewalks, and driveways. This product can kill all plants contacted, so be careful not to spray desirable plants.

**KILLS:**

Bahiagrass, Bentgrass, Bermudagrass, Bindweed (Wild Morningglory), Blackberries, Black Medic, Bluegrass, Blue Toadflax, Brassbuttons, Bromegrass, Broadleaf Plantain, Bur Clover, Canada Thistle, Chickweed, Common Groundsel, Common Plantain, Crabgrass, Creeping Beggarweed, Creeping Bentgrass, Creeping Charlie, Curly Dock, Dandelion, Dog Fennel, Diffuse Lovegrass, Evening Primrose, False Dandelion, Fennel, Fescue, Fiddleneck, Filaree, Florida Pusley, Garden Spurge, Henbit, Johnsongrass, Knotweed, Lambsquarters, Little Bitter Cress, London Rocket, Mallow, Maiden Cane, Mayweed, Mouseear Chickweed, Nimbwill, Oldenlandia, Orchardgrass, Oxalis, Pennsylvania Smartweed, Pennywort, Perennial Ryegrass, Poison Ivy, Poison Oak, Prostrate Spurge, Primrose, Puncture Vine, Quackgrass, Ragweed, Sandspur, Shepherdspurge, Smooth Cat's Ear, Sowthistle, Spotted Spurge, St. Augustinegrass, Tall Fescue, Torpedograss, White Clover, Whitetop, Wild Barley, Yellow Nutgrass and Zoysia.

**Systemic  
Weed & Grass  
Killer**

**For General  
Grass & Weed Control**

**Kills Weeds & Grasses on Contact,  
Roots and All!**

**ELIMINATES UNDESIRABLE VEGETATION  
IN 2 TO 4 WEEKS. SAFE TO USE AROUND  
FLOWER BEDS, TREES & SHRUBS.**

Active Ingredients	By Wt.
Isopropylamine salt of *glyphosate	5.00%
Inert Ingredient	95.00%
*N-(phosphonomethyl) glycine	

**Keep out of reach of children**

**CAUTION**

**For additional precautionary  
statements - see back of label**

**Read entire label**

**NET CONTENTS 1 QT.**

**WHEN TO APPLY**

For best results, apply during warm sunny weather, with vegetation is actively growing. Sunlight & temperatures above 60°F will accelerate the systemic killing action of this product. Apply when air is calm to avoid spray hitting desirable plants. This spray is non-selective and can kill all vegetation contacted. If desirable foliage is sprayed, immediately wash off with water. Do not use when rain is expected within 24 hours as effectiveness will be reduced. Usually within one week browning will occur, with complete kill developing in 2-4 weeks. Hard to kill perennial weeds such as Bermudagrass, dandelions, Canada Thistle & Nimbwill may require more than one application if regrowth appears. Treated lawns can be reseeded in only 7 days after treatment. Do not use around plants to be used for food or feed. Avoid cutting treated vegetation for at least 7 days.

**DIRECTIONS FOR APPLICATION:**

To apply with aluminum, stainless steel or plastic type tank sprayers, dilute one cup (8 oz.) of Systemic Weed & Grass Killer to one gallon of water (Covers 250 sq. ft.) **IMPORTANT:** Using galvanized or unlined steel tank sprayers is not recommended. However, if a galvanized or unlined steel tank sprayer is used, the solution must be used immediately. Do not store unused spray. Always rinse sprayer after use. When using hose end sprayers, pour indicated amount of undiluted product into sprayer jar to cover area being sprayed. One pint of undiluted spray covers 500 sq. ft. (See Coverage Table). When treating around trees and shrubs or spot treating lawns the tank type sprayer is recommended. Spray carefully to avoid hitting surrounding desirable grasses or nearby plants.

**MIXING AND COVERAGE TABLE**

Area to Cover	Amount of Undiluted Systemic Weed & Grass Killer to Use	Water to Use
250 sq. ft.	8 fl. oz. (1 cup)	1 gallon
500 sq. ft.	1 pt.	2-3 gallons
1,000 sq. ft.	1 qt.	4-6 gallons

**DIRECTIONS FOR PREPARING REFILL FOR  
READY TO USE WEED & GRASS KILLER:**

The Ready to Use solution can be mixed in the empty applicator bottle. Add 1 part Systemic Weed & Grass Killer to 9 parts clean tap water to make the .5% solution. For example: Add 18 oz. of water to 2 oz. of this product. Follow directions for use on applicator bottle.

**STORAGE AND DISPOSAL**

Protect from freezing. Do not reuse empty container. Wrap container and put in trash collection.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.
