

BEST AVAILABLE COPY

SHOOT-OUT! kills weeds & grasses effectively. The spray mist is absorbed by the leaves and travels throughout the stems and roots to kill the entire plant. Regrowth from the roots is prevented.

This product is a highly selective, non-flammable herbicide that kills undesirable vegetation including: Bluegrass, Bermudagrass, Brome, Crabgrass, Dandelion, Dogfennel, Johnsongrass, Kentucky Bluegrass, Orchardgrass, Perennial Poa, Ryegrass, Ryegrass, Sandbar, and others.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO USE: Adjust the nozzle to a coarse spray. Hold the nozzle close to the weeds (12 ft.) and apply to cover the plant, but not to the plant's surface. One application should kill most weeds listed. Some hard to kill weeds and grasses may require a second treatment. Bleeding will usually occur within one week, with a complete kill in 2 to 4 weeks. Treated areas can be reseeded immediately after application.

IMPORTANT: AVOID SPRAY CONTACT ON DESIRABLE PLANTS AS THEY WILL ALSO BE KILLED. If contact occurs, wash off spray immediately with water. Do not use this product on lawns until they are completely dry.

DIRECTIONS FOR PREPARING REFILL: To make this concentrate, add 1 gallon of water to 1 quart of SUPER X-GRO SHOOT-OUT! CONCENTRATE. Shake well. Use with water in 20:1 ratio.

OTHER USES: Use this product on weeds and grasses in lawns, pastures, and other areas.

STORAGE & DISPOSAL

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed. Mixtures and residues may be hazardous to humans and animals.

CONTAINER DISPOSAL: After emptying, rinse thoroughly. Do not reuse for food or drink.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Keep children and pets off treated areas until the spray has dried. Wash hands thoroughly with water after use. Avoid contact with eyes, nose, mouth, and clothing. If contact occurs, wash immediately with water. If swallowed, get medical attention immediately.

ENVIRONMENTAL HAZARDS

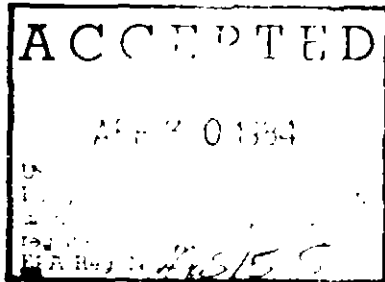

This product is highly toxic to fish and aquatic life. Do not apply to water bodies or wetlands. Do not apply to areas where wildlife or domestic animals may be present.

NOTICE: Read all labels of all products used in conjunction with this product. Do not use if the label is not present.
