U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

46515-16

Date of Issuance:
JUN 1 1998

Term of Issuance:

Conditional

Name of Pesticide Product:

Super K-Gro Vegetation
Killer Formula II

NOTICE OF PESTICIDE:
Registration
X Reregistration

(Under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Celex
Division Of United Industries Corp.
P.O. Box 15842
St. Louis, MO 63114

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally reregistered in accordance with FIFRA Section 4(g)(2)(C). Reregistration under this section of the Act does not eliminate the need for continual assessment of the registration of this product. Reregistration base on your response to the EPA Reregistration Eligibility Decision (RED) is conditional until you:

1. Make the following label changes:

a. Under the heading entitled User Safety Recommendations, please incorporate the following statement:

"User should remove PPE immediately after handling this product. Wash the outside of glove before removing. As soon as possible, wash thoroughly and change into clean clothing."

b. Under the heading entitled Storage & Disposal, please incorporate the following statement:

"Store in original container preferably in a locked storage area inaccessible to children."

If this condition is not complied with, the registration will be subject to cancellation in accordance with FIFRA section

Signature of Approving Official:

Date:

JUN 1 1998

6(e). Your release for shipment of the product constitutes acceptance of the condition. Stamped copies of the labels are enclosed for your records.

ACCEPTED
JUN 1 1998
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 46515-16

BACK PANEL (continued)

SUPER K-GRO VEGETATION KILLER FORMULA II [This product] is a Ready-To-Use, non-selective herbicide that top kills grasses and weeds on contact. This product becomes quickly inactivated on contact with soil and will not sterilize the soil when used as directed. It will not stain paved or graveled areas. Apply as directed to control unwanted vegetation around shrubs, trees, buildings, patios, in brick and gravel walks and next to fences, driveways, sidewalks and curbs.

Optional language for spray-top bottles:

[HOW TO USE: Adjust the nozzle to desired spray pattern and thoroughly cover unwanted vegetation. For top killing vegetation around shrubs, trees and buildings, hold the sprayer 2 to 6 inches from the area to be treated. Be sure that all undesirable vegetation is thoroughly covered.]

Optional language for applicator-top bottles:

[HOW TO USE: Shake well before using. Remove cap from applicator top and be certain that applicator top is firmly on jug. Invert jug and adjust stream of product by changing the angle and height at which the bottle is held. For edging around fences, lawns and sidewalks, and top killing vegetation around shrubs, trees and buildings, hold the container 2 to 6 inches from the area to be treated depending upon the desired width of the spray pattern. For controlling weeds in unconfined areas such as gravel walks and driveways or patios, apply 1 gallon to 200 square feet. Holding the jug about waist high and away from the body to avoid contact with skin and clothing, walk slowly making sure that all undesirable vegetation is thoroughly covered. For spot treating, handle the jug so that the spray hits only the area to be treated.]

Optional directions for container with separate sprayer attached in a bag (directions go on sprayer bag):

TRIGGER SPRAYER
DIRECTIONS FOR USE

1. Remove sprayer from bag.
2. Unscrew cap from bottle and remove foil seal.
3. Making sure that tube is properly inserted through hole in cap, insert tube into bottle and screw on cap.
4. Open spray nozzle approximately one full turn.
5. TO PRIME - With sprayer directed at the target area, operate trigger until spray begins (approximately 10-15 times).
6. Adjust the sprayer nozzle for desired spray pattern.

STORAGE

1. Hook the trigger on or under the bottle handle so that trigger is above the level of contents.
2. To prevent clogging of trigger, remove hose from sprayer and pump clean water through the hose and trigger.

SUPER K-GRO VEGETATION KILLER FORMULA II [This product] may be applied anytime during the year when weeds are actively growing. For best results, apply during warm, sunny weather. Wilting will occur in 1 to 3 days and complete browning of vegetation in 5 to 7 days. Some hard to control weeds may require more than one application.

IMPORTANT: Apply when air is calm to avoid spray contacting desirable vegetation, green bark, broken bark, buds, or leaves of desirable plants as damage may result. Do not track spray from treated areas to untreated areas. Do not apply product around plants to be used for food or feed.

USER SAFETY RECOMMENDATIONS: Clothing exposed to this product should be washed in detergent and hot water. Such items should be kept and washed separately from other laundry. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. *User should remove PPE immediately after handling this product. Wash the outside of glove before removing. As soon as possible, wash thoroughly and change into clean clothing.*
