

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. QC QUAT III

has been formulated to aid in the reduction of cross-contamination in these areas.

QC QUAT III is a one-step disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal, and will prevent the growth of mold and mildew and their odors when used as directed.

QC QUAT III is an effective one-step sanitizer-cleaner for use on non-food contact surfaces.

When used as directed, QC QUAT III will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

QC QUAT III is a proven "one step" disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply QC QUAT III to walls, floors and other hard (non-porous) non-porous surfaces such as tables, chairs, counter tops, sinks, tile, porcelain, and bathtubs with a cloth, mop or mechanical scrub device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

Disinfection - In disinfect hard, non-porous surfaces, in hospital add 2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At 1 1/4 oz. per gallon of water, QC QUAT III will disinfect hard non-porous surfaces in school, industry and non-medical institutions.

2 oz. per gallon use level. The activity of QC QUAT III has been evaluated in the presence of 5% serum and 400 ppm hard water by the AOAC use dilution test and found to be effective against a broad spectrum of gram negative and gram positive organisms as represented by:

- Pseudomonas aeruginosa
- Staphylococcus aureus
- Salmonella choleraesuis
- Escherichia coli
- Streptococcus pyogenes
- Klebsiella pneumoniae
- Enterobacter aerogenes
- Streptococcus faecalis
- Shigella dysenteriae
- Stenobacillus moniliformis
- Salmonella typhi
- Serratia marcescens

For splash, jewelry and non-porous bottles use: At 1 1/4 oz./gallon of water QC QUAT III delivers excellent cleaning and germicidal effectiveness. It is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli and Serratia marcescens. The same AOAC tests used to confirm performance for hospitals were used.

Fungicidal Control - QC QUAT III is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, showers and bath areas - exercise facilities, etc. at 2 oz./gallon.

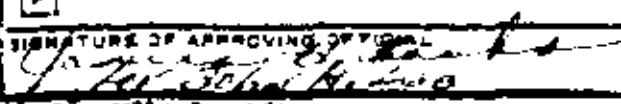

Mold and Mildew Control - At 1 1/4 oz./gallon QC QUAT III will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance - At 1 1/4 oz. per gallon use level, QC QUAT III has been evaluated and found to be effective in the presence of 5% serum and 400 ppm hard water against the following viruses: Influenza A/Brazil, Herpes Simplex and Vaccinia on non-porous environmental surfaces.

Sanitizing Non-Food Contact Surfaces (such as floors, walls, tables, etc.) At 1 oz. per 2 1/2 gallon use level, QC QUAT III is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae on hard porous and non-porous environmental surfaces. Treated surfaces must remain wet for 60 seconds.
