Subject: PRIA Label Amendment – Addition of pesticidal organisms
Product Name: CaviCide Bleach
EPA Registration Number: 46781-15
Application Date: December 30, 2019
Decision Number: 559015

Dear Ms. Lei:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2
EPA Reg. No. 46781-15
Decision No. 559015

with FIFRA section 6. If you have any questions, please contact Melanie Bolden by phone at (703) 347-0165, or via email at Bolden.Melanie@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Fuller', with a long horizontal stroke extending to the right.

PHYSICAL AND CHEMICAL HAZARDS: This product contains bleach. Do not use this product with other chemicals such as ammonia, toilet bowl cleaners, rust removers, or acid, as this releases hazardous gases.

[FIRST AID]

[If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.]

[For Chemical Emergency ONLY (spill, leak, fire, exposure or accident), call CHEMTREC at 1-800-424- 9300]

For [ALL] [other] inquiries about this product, call Metrex Customer [Service] [Care] at 1-800-841-1428, Monday through Friday, between 6 a.m. and 4 p.m. Pacific Time.

Note: This product meets EPA's Toxicity Category IV by all routes of exposure. Therefore, a Signal Word, Precautionary Language and First Aid Statement is not required in accordance to EPA Label Review Manual: Chapter 7. Registrant voluntarily put in the above First Aid statements.

Packaging Statements:

[Refill only with this product]

[Use A-C as applicable depending on container type:]

A.

Operating Trigger

To Operate: Turn -or- Rotate nozzle [counterclockwise] to "spray" -or- "stream" -or- ON [setting]. -or- Adjust [nozzle] to desired pattern.

- When almost empty tilt bottle downward -or- at a downward angle [while spraying].

B.

To Refill [Spray Bottles]:

- 1.Remove trigger sprayer -or- cap [from empty bottle]
- 2.Unscrew cap on refill and pour contents directly into empty bottle.
- 3.Replace trigger sprayer -or- cap [and use as you normally would].

C.

To Refill: [Remove:] Remove cap from empty bottle. [Pour:] Unscrew cap on refill and pour contents directly into empty bottle. Use a funnel to minimize product spills -or- waste. [Use:] Replace cap and use as you normally would.

The following Environmental Hazards statement is to be included only on labeling of containers that are 5 gallons and larger.

Environmental Hazards: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Packaging Statements *continued*:

[CaviCide Bleach is available in following packaging [configurations]:

- [4 gallons/CS]
- [48 – 2oz bottles/CS]
- [12 – 8oz bottles/CS]
- [12 – 24oz bottles/CS]
- [12 – 32oz bottles/CS]
- [2 – 2.5 gallons/CS]
- [1 – 55 gallon drum/CS]
- [1 – 350 gallon transport tote]

Emerging Viral Pathogens

This product meets the criteria for use against the following categories of emerging viral pathogens when used in accordance with the use directions for Poliovirus type 1 and Rhinovirus type 37:

- Enveloped Viruses
- Large Non-Enveloped Viruses
- Small Non-Enveloped Viruses

*Per Draft Guidance: **Process for Making Claims Against Emerging Viral Pathogens Not on EPA-Registered Disinfectant Labels.** (Statements intended for technical literature, “1-800” consumer information services, social media sites and company websites (non-label related). Information is NOT to appear on marketed product labels. One or both statements below may be used.)*

[Product name] has demonstrated effectiveness against viruses similar to **[name of emerging virus, which must be a small non-enveloped, large non- enveloped, or enveloped virus]** on **[eligible surface type(s)]**. Therefore, **[product name]** can be used against **[name of emerging virus, which must be a small non-enveloped, large non-enveloped, and/or enveloped virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, non-porous surfaces]**. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

[Name of illness/outbreak] is caused by **[name of emerging virus, which must be a small non- enveloped, large non-enveloped, and/or enveloped virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging virus, which must be a small non-enveloped, large non-enveloped, and/or enveloped virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, non-porous surfaces]**. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

[Use A or B as applicable depending on container type:]

A.

Nonrefillable bottles

Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration. In case of spill, flood areas with large quantities of water. Product that cannot be used should be diluted with water before disposal in a sanitary sewer. Nonrefillable container. Do not reuse empty container. [Triple rinse promptly, then] [please] recycle empty container or discard in trash.

B.

Refillable bottles *intended to be refilled by the consumer*

Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration. Do not reuse or refill except as described in the directions for use. Refill only with this product. [Please] recycle empty container or discard in trash.

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION Directions for Use:

[Listing of at least one of the following disinfection instructions, A – E is required:]

A. [To disinfect hard, nonporous surfaces:]

[Spray application:

Spray 6-8 inches from the surface. Let remain visibly wet for 3 minutes. Wipe with a [sponge] [rag] [cloth] [microfiber] [towelette] Visible soil loads must be removed prior to disinfecting.]

B. [Direct application:

Directly [apply] [pour] [this product] with a [cloth] [sponge] [mop] [rag] [towelette] and wet surfaces completely. Let surface remain visibly wet for 3 minutes. [Rinse] [Let air dry.] Visible soil loads must be removed prior to disinfecting.]

C. [Apply this undiluted product [by] [with a] [sponge] [rag] [cloth] [microfiber] [towelette] [mop] [spraying] [pouring] [or] [immersing] to wet all surfaces thoroughly. When used as directed this [product] [product name] effectively kills the following microorganisms at room temperature [*insert organisms*] [at] [in] 3 minutes. Visible soil loads must be removed prior to disinfecting.]

D. [For use as a Disinfectant on non-instrument surfaces:

Spray CaviCide Bleach directly onto surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes. Wipe surface using a [towel][wipe] [cloth] allow to air dry. Visible soil loads must be removed prior to disinfecting.]

E. [For use as a Disinfectant on Hard, Non-Porous Surfaces of Non-Critical Medical Devices, Instruments and Implements:

Instruments must be thoroughly cleaned to remove excess organic debris, rinsed and dried. Thoroughly clean and rinse lumens of hollow instruments. Spray CaviCide Bleach directly onto surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes. Remove and rinse instruments. Wipe dry prior to use.

¹Non-critical medical devices are items that come in contact only with intact skin.

Note: Critical and semi-critical devices must be followed by appropriate terminal sterilization/high-level disinfection process.]

[The following instruction is to be included when hard, non-porous exterior surfaces of ultrasound transducers or probes are listed as a use site.]

[To disinfect external surfaces of ultrasound transducers: Pre-clean ultrasound gel from external transducer to be disinfected [by using a clean wash cloth]. Spray CaviCide Bleach directly onto surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes]

[The following paragraph will be included in its entirety when the production label references medical devices:]

[This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.]

DIRECTIONS FOR USE *continued*
CLEANING / DEODORIZING PRIOR TO DISINFECTION
Directions for Use:

[To [clean] [deodorize] hard, nonporous surfaces:]

[For cleaning non-instrument surfaces prior to disinfection:

Remove visible soil loads. Spray CaviCide Bleach directly onto surface. Allow to remain visibly wet for 30 seconds. Wipe surface using a towel.]

[For cleaning instruments prior to disinfection:

Remove visible soil loads.] ***[Listing of at least one of the following cleaning instructions, A – G is required:]***

- A. [For use as a cleaning and pre-decontaminant immersion solution] [For use as a cleaning instrument soak]:** Place instruments in a container with a sufficient amount of CaviCide Bleach so as to allow for complete submersion, cover and immerse for 5 minutes. Remove and rinse instruments. Follow with appropriate disinfection process. Discard solution after each use.]
- B. [For use as a cleaning and pre-decontaminant spray:** Place instruments in a container. Spray CaviCide Bleach so as to thoroughly drench all instrument surfaces and allow to remain visibly wet for 30 seconds. Remove and rinse instruments. Follow with appropriate disinfection process.]
- C. [For use as an ultrasonic cleaning solution:** Thoroughly rinse instruments under running water to remove visible gross debris. Add 1 ounce CaviCide Bleach per liter of water to ultrasonic unit. Immerse instruments in solution and activate ultrasonic unit for 5 minutes or longer, if necessary. Remove and rinse instruments. Follow with appropriate disinfection process. Discard solution after each use.]
- D. [For use to [pre-decontaminate] [clean] [pretreat] flexible endoscopes prior to handling during terminal reprocessing:** Immediately after use and while the scope is still connected to the light source thoroughly wipe the exterior surface of the insertion tube using a sponge saturated with this product until visibly clean. Flush the internal channels of the scope suctioning this product through the internal channels through the suction tubing and into the suction jar until the solution is visibly clean. Cover the scope and transport to the appropriate area for terminal reprocessing.]
- E. [For use as a manual cleaner:** Thoroughly rinse instruments under running water to remove visible gross debris. Place instruments in a container with 1 ounce CaviCide Bleach per liter of water. Scrub instruments while submerged for 30 seconds using a stiff bristle brush until visibly clean. Remove and rinse instruments. Follow with appropriate disinfection process. Discard solution after each use.]
- F. [For cleaning hair clippers and electric shears:** While clipper/electric shear is running, hold it in the downward position and spray CaviCide Bleach to thoroughly wet the blades. Allow to remain wet for 30 seconds. Avoid spraying on the clipper case or dripping into the clipper housing. Rinse clipper/electric shears and follow with appropriate lubricating and disinfection process.]
- G. [For cleaning salon implements and shears:** Spray with CaviCide Bleach to thoroughly wet the implement/shear. Allow to remain wet for 30 seconds. Wipe away visible debris using a soft bristle brush or cloth. Rinse implement/shear and follow with appropriate lubricating and disinfection process.]

DIRECTIONS FOR USE *continued*

(#)(Y) Special Instructions for Cleaning Prior to Disinfection against *Clostridium difficile* spores.

Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks and eye covering.

Cleaning Procedure: Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with [Product Name] [this product saturated with product name]. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths.

Infectious Materials Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

(#)(Y) Special Label Instructions for Cleaning Prior to Disinfection against *Candida auris*.

Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks, or eye covering.

Cleaning Procedure: Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with [Product Name] [this product saturated with product name]. Pre-cleaning is to include vigorous wiping and/or scrubbing and all visible soil is removed. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading the organism. Restrooms are to be cleaned last. Do not reuse soiled cloths.

Infectious Waste Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

The following HIV-1* / HBV* / HCV* instructions are to be included on production labels when claims against HIV-1* or HBV* or HCV* are listed.

(Y) CaviCide Bleach effectively kills [Human Immunodeficiency Virus* Type 1 (HIV-1),] [Hepatitis B Virus* (HBV),] [[and] Hepatitis C Virus* (HCV)] on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects can be associated with the potential for transmission of [HIV-1*,] [HBV*,] [[and] [HCV*].

Special Instructions for Cleaning and Decontamination Against [HIV-1*,] [HBV*,] [[and] HCV*] of Surfaces or Objects Soiled With Blood or Body Fluids:

Personal Protection: When handling items soiled with blood or body fluids, wear [appropriate] barrier protection [such as] [:] disposable protective gloves, gowns, face masks and eye coverings.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. CaviCide Bleach can be used for this purpose.

Contact Time: Thoroughly wet surface with CaviCide Bleach. Repeated use of the product may be required to ensure that the surface remains visibly wet for 3 minutes.

Disposal of Infectious Materials: Dispose of material in accordance with Federal, State or local regulations for infectious materials disposal.

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

Statements in brackets, [], are optional or instructional. Bold, italicized text and italicized words within parentheses are information for the reader and are not included on production labels. Sequence of statements is optional unless specified in 40 CFR 156.10. DIRECTIONS FOR USE *continued*

The following statement is to be included on production labels when animal housing facilities are listed. (Including Veterinary Clinics, Farms and Poultry Houses)

For cleaning and disinfecting the following hard nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, cages etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including pens, chutes, and barns) occupied or traversed by animals.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water. Saturate surfaces by wiping with product for a period of 3 minutes.
5. Wipe all handling and restraining equipment such as leashes, muzzles, halters or ropes, as well as forks, shovels, and scrapers used for removing litter and manure.
6. Ventilate buildings and other closed spaces.
7. Do not house animals or employ equipment until treatment has been absorbed, set or dried.
8. Thoroughly scrub treated feed racks, troughs, mangers, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

The following statement is to be included on production labels when food contact areas or surfaces are listed.

+ A thorough rinse with potable water is required for surfaces in direct contact with food.

[APPLY CAREFULLY – This product contains bleach.] [Refill only with this product.]

[Always refer to manufacturer's care instructions before using on equipment -or- devices.]

[DO NOT USE AS A BABY WIPE.] [Not For Use On Skin] [DO NOT FLUSH WIPE]

[Not for cleaning or sanitizing skin.] [Do not use as a diaper wipe or for personal cleansing.] [APPLY CAREFULLY – This product contains bleach.] [Refill only with this product.] [Always refer to manufacturer's care instructions before using on equipment -or- devices.]

[The following graphics are optional for canister containers only. They will be affixed to the label/canister so that it does not interfere with any label text. Due to size constraints, they will not appear on individually wrapped packets.]

PRODUCT CLAIMS

▲ to represent any use site(s) listed in below as applicable.

◆ to represent any surface(s) listed in below as applicable.

- [1 Step γ Germicidal Spray (against [listed organisms] [organisms from Organism List])]
- [3 minute kill time]
- [3 minute contact time]
- [99.9999% [6 [six] log] reduction for [*Clostridium difficile*¥] -or- [*C. difficile*¥] -or- [*C. diff*¥] [(*C. diff*)¥] [spores]]
- [[Representative of] a 1:10 sodium hypochlorite solution [for effective disinfecting against *Clostridium difficile*¥ -or- *C. difficile*¥ -or- *C. diff*¥ [(*C. diff*)¥] [spores]]]
- [99.999% [5 [five] log] reduction for [*Candida auris*#] -or- [*C. auris*#]]
- [Kills a minimum of [[99.999% [5 [five] log] of [*Candida auris*#] -or- [*C. auris*#] on hard, non-porous surfaces.]
- [[Representative of] a 1:10 sodium hypochlorite solution [for effective environmental disinfection against [*Candida auris*#] -or- [*C. auris*#]]]
- [A Metrex Research[®] brand]
- [A Metrex[®] brand]
- [A CaviCide[™] Brand]
- [Advanced Cleaning Formula]
- [[Aids] [Helps] in reducing -or- in the reduction of cross-contamination between treated hard non-porous surfaces]
- [An effective method to clean against odor-causing organisms on hard, non-porous surfaces listed on this label].
- [[A] one-step γ cleaner/disinfectant]
- [A disinfectant product for use on ◆ and other ◆]
- [Always ready-to-use]
- [An effective method to deodorize and disinfect against odor-causing organisms on hard non-porous surfaces]
- [An effective way to disinfect hard, non-porous environmental surfaces [listed on this label]]
- [A disinfectant for use in ▲ and other critical care areas where control between treated hard non-porous surfaces is required]
- [Antibacterial]
- [Antimicrobial]
- [Antifungal]
- [A One-Step γ Cleaner [and disinfectant] [except when precleaning is required for [*C. diff*¥,] [*C. auris*#,] blood and body fluids]]
- [[Appropriate] [Perfect] [Ideal] [for] Cleaning Patient Discharge]
- [Appropriate] [Perfect] [Ideal] for [Occupied Room] [and] [Terminal Room] [Discharge] Cleaning]
- [Kills [*Clostridium difficile*¥] [*C. difficile*¥] [*C. diff*¥] [(*C. diff*)¥] [spores] [on precleaned, hard, nonporous surfaces]]
- [Kills and/or Inactivates [*Candida auris*#] [*C. auris*#] [on precleaned, hard, nonporous surfaces]]
- [Bacteria -and/or- virus* deactivating [formula]]
- [Bactericidal] [Virucidal*] [Fungicidal] [Sporicidal] [Tuberculocidal] [in 3 minutes]
- [Bactericide -or- Bactericidal] [(in 3 minutes)]
- [Bathroom disinfectant]
- [Barber Disinfectant/ Cleaner]
- [Broad spectrum disinfectant]
