

Upholstery: Remove loose cushions. Sprinkle along creases and into corners. Brush lightly to work powder into folds and creases. Vacuum to remove visible powder on surfaces. Do not use on exposed fabric without first testing on a hidden surface for effects on color (staining) or texture. If powder adheres to a spot, brush out and vacuum that area immediately.

When emptying vacuum bag after use, wrap contents or disposable bag in several layers of newspaper and discard in trash. Treat pets with a registered flea and tick control product prior to re-entry.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area inaccessible to children and pets.

Disposal: Do not reuse container. Wrap and put in trash.

This container is sold by weight, NOT by volume. You can be assured of the proper weight even though some settling of contents normally occurs during transportation and handling.

PRECAUTIONARY STATEMENTS

Hazards To Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid breathing dust and contact with eyes, skin or clothing. Wash hands after handling and before eating or smoking. Do not contaminate feed, water or foodstuffs. Do not apply to food processing surfaces or use in food processing areas where food is exposed. Cover fish aquariums before use. Keep children and pets off treated carpet and upholstered furniture during treatment and while powder is still visible on their surfaces.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call physician or Poison Control Center immediately. Induce vomiting by giving victim 1 or 2 glasses of water and touching back of throat with finger. Never give anything by mouth to an unconscious person.

If In Eyes: Flush eyes with plenty of water. Get medical attention if irritation persists.

If On Skin: Wash with soap and water.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with this label.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

MAY 17 1993

Mr. Frank Chau
CCL Custom Manufacturing, Inc.
1 W. Hegeler Lane
Danville, IL 61832

Dear Mr. Chau:

Subject: Revised Formulations and Labeling in Response to PR
Notices 92-3 and 92-2, respectively.
CCL Insect Killer X
EPA Reg. No. 46813-6
Submission dated February 18, 1993

The labeling and revised basic formulation (dated February 18, 1993) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, are acceptable subject to the comments listed below. A stamped copy is enclosed for your records.

Since your label now depicts "Contains no CFCs. . .", the formulation containing the Class I substance is no longer consistent with the terms of its registration. You must therefore submit an acknowledgement that the "1,1,1-trichloroethane" containing formulation is now obsolete and will not be marketed. To do otherwise would be contradictory to the newly revised labeling and would be inconsistent with the intent of PR Notice 92-3 of ultimately phasing out all ozone depleting substances. You should respond to this request within 30 days from receipt of this letter.

This procedure will ensure that the Agency can effectively distinguish between products that still contain Class I substances (to facilitate their removal) and those that do not. If you have any further questions, do not hesitate to contact me.

Sincerely,

RK

Rita Kumar
Acting Product Manager 10
