

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

May be fatal if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food processing equipment during application. Do not apply while food processing is underway. In the home, all food processing surfaces and utensils should be covered during the treatment, or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until they are dry.

PHYSICAL OR CHEMICAL HAZARDS

EXTREMELY FLAMMABLE: Do not use or store near fire, sparks, or heated surfaces. Turn off pilot lights in gas appliances and unplug or turn off electrical equipment in the use area. After airing out phase is completed, re-light pilot lights and reconnect electrical current. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration of container may cause explosion.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting because of aspiration hazard. Call a physician or Poison Control Center. Product contains aromatic petroleum solvents.

If on Skin: Wash thoroughly with soap and water.

If in Eyes: Flush with plenty of water.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: "Do not contaminate water, food, or feed by storage or disposal." "Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility." Wrap container and put in trash collection.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

GENERAL

Use this product as a spot or crack and crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

SPOT TREATMENT

To Kill Ants, Roaches, Crickets, Silverfish, Sowbugs, Spiders and Firewigs: Spray into cracks, crevices, around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and in and around waste containers. Contact directly as many insects as possible. For ants, spray trails and places where ants enter premises. Repeat as necessary for control.

To Kill Brown Dog Ticks and Fleas: Remove and destroy old bedding. Spray sleeping quarters of pets, around baseboards, windows and door frames, wall cracks, and localized areas of floors. Repeat as necessary. Fresh bedding should be placed in animal quarters after spray has dried. Do not spray animals. To control the source of your infestation treat your pets with a product registered for application to animals.

To Kill Carpet Beetles and Dermestids: Spray along baseboards, edges of carpeting under carpets and rugs, under furniture, in closets, on shelving, and in other places of harborage. Repeat as necessary.

FOR CRACK AND CREVICE:

Application within food handling establishments (places other than private residences, in which food is held, processed, prepared or served) including but not limited to restaurants, grocery stores, bakeries, bottling plants, canneries and grain mills: To kill ants, roaches, crickets, silverfish, sowbugs, spiders, earwigs, brown dog ticks, fleas, carpet beetles and dermestids: Use as a spot treatment in and around both food and non-food areas where the above pests have been seen or are suspected of hiding or entering. Apply only enough spray to thoroughly cover the surfaces treated using special care to avoid unnecessary runoff. Do not introduce the spray into the air or allow the spray to contact food or food-contacting surfaces. Areas treated may include dark corners of rooms and closets; along and behind baseboards; beneath and behind stoves and refrigeration units, floor drains and around plumbing and other utility installations.

FOR CRACK AND CREVICE INJECTION SYSTEM:

Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where the above listed insects hide.

Do not apply this product in conduits, motor housings, junction and switch boxes or other electrical equipment because of possible shock hazard.

Application of this product in food handling establishments other than as a spot and/or crack and crevice treatment is not permitted.

OUTDOOR USE:

To Kill Ants, Crickets, Fleas, Chiggers, and Brown Dog Ticks: Spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios or other places where insects may enter. For ants, spray hills and runways. Repeat as necessary. Do not spray vegetation.

To Kill Fleas, Mosquitoes, Wasps and Flying Meths: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, windows or wherever these pests may enter room. Also treat surfaces around light fixtures or porches, in garages, and other places where these insects might congregate.

EPA Reg. No. 46813-38

EPA Est. No. 46813-CN-01

Manufactured by:
GCL Industries Inc.

Toronto, Ontario M4B 1Y5

CRAWLING INSECT KILLER I

For use in Homes and Food and Non-food Areas of
Kennels, Commercial Buildings, Warehouses,
Theatres, Office Buildings, Schools, Motels, Hotels,
Restaurants, Food Processing Facilities and Other
Industrial and Agricultural Establishments.

Contact as Well as Residual Crack & Crevice Surface
Spray and Injection System.

This formulation kills the insects listed below
on contact and many weeks after the spray
deposit has dried.

Spiders, Sowbugs, Earwigs, Roaches, Ants, Crickets, Scorpions,
Millipedes, Silverfish, Fleas, Saw-toothed Grain Beetle (exposed
state), Brown Dog Ticks, Clover Mites, Carpet Beetles,
Dermestids, Waterbugs, Chiggers

ACTIVE INGREDIENTS:

d-trans Allethrin (allyl homolog of Cinenn I)	0.050%
N-Octyl bicycloheptene dicarboximide	0.400%
**Chlorpyrifos (0,0-diethyl 0-(3,5,6-trichloro- 2-pyridyl) phosphorothioate	0.500%
INERT INGREDIENTS:	99.05%
	100.000%

*MGK-264 Insecticide Synergist

**U.S. Patent No. 3,244,586 - Dow Chemical Company
Contains petroleum distillate
