PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors or spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

First Aid

Have the product container or label with you when calling a poison control center or doctor or going for treatment. [You may also call {toll free number} for emergency medical treatment information.]	
If Swallowed:	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If Inhaled:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
If on Skin or Clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

{Note: The grid format will be used if market space allows; otherwise a paragraph format will be used.}

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Environmental Hazards

Do not apply directly to water. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General

Use this residual spray as a spot or crack and crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat weekly or as reinfestation warrants.

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries, vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

In the home, cover all food processing surfaces and utensils during treatment or thoroughly wash before use. Cover or remove exposed food. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until spray has dried. Do not apply to classrooms when in use.

Not for use in USDA Meat and Poultry Plants.

For Spot Treatment

To Kill Ants, Cockroaches, Crickets, Silverfish, Spiders, Sowbugs, Earwigs and Carpet Beetles: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets; and around garbage cans, plumbing and other utility installations. Directly spray pests driven out of hiding places. For ants, apply to ant trails, around doors, windows frames and wherever else these pests may find entrance.

To Kill Brown Dog Ticks and Fleas: Remove and discard or wash old pet bedding. Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters; nearby cracks and crevices; along and behind baseboards; window and door frames; and localized areas of floor and floor coverings where these pests may be present. After treatment replace old pet bedding with clean, fresh bedding. **Do not spray pets with this product.** Simultaneously treat pets with a product registered for flea and tick control on pets before allowing pets to enter treated areas.

Outdoors

To Kill Houseflies, Horse Flies, Face Flies, Deer Flies, Stable Flies, Cluster Flies, Horn Flies and Mosquitoes: Use as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames; and other areas where these pests may find entrance. Spray dark corners and localized resting areas (such as under eaves) of porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool (preferably locked) place inaccessible to children and pets and away from heat or open flame.

Disposal: Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency [or 1-800-CLEANUP] for disposal instructions.

Subject: CCL Quick Breaking Insect Repellent Foam
EPA Registration No. 46813-46
8 Month response to DCI received November 4, 1999

Dear Mr. Adams:

The review of the 8 month response to the DCI issued for products containing DEET has been completed. As a result of the review, the current label accepted on February 19, 2004 must be revised as follows:

1) Change the Precautionary Statements to read as follows:

"Causes moderate eye irritation. Avoid contact with eyes. Use of this product may cause skin reactions in rare cases. Wash treated clothing before wearing it again. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet."

2) In the First Aid section of the label after the statement, "Have the product container xxx for treatment." add the statement, "For additional information in case of emergency call toll free (Telephone Number)". Insert the proper telephone number.

3) In the directions add the statement, "Do not use under clothing."

4) Correct the spelling of the second active ingredient.

These label changes must be made at the next printing of labels.

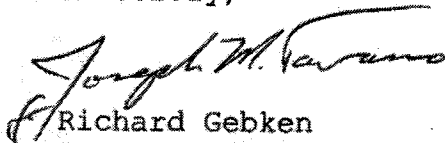

This product is not being re-registered at this time. Product specific efficacy data will be required. Once the efficacy guidelines are in place, you will be notified of the efficacy requirements.

Also, to be eligible for re-registration, the product must be packaged in containers utilizing a concave trigger to help aim the product or other comparable mechanism that will ensure that the product will not be inadvertently sprayed in the eyes.

The CSFs dated September 27, 2002 for the basic and alternate formulations are acceptable and have been made a part of the file for this product.

If you have any questions or comments please contact Joseph Tavano at (703) 305-6411.

Sincerely,

Richard Gebken
