

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed or absorbed through skin. Avoid breathing vapors of spray mist. Avoid contact with skin and eyes.

Do not apply directly to food. In commercial food handling facilities, cover or remove any processing equipment during application. Do not apply while food processing is underway. In the home, all food processing surfaces and utensils should be covered during the treatment, or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact surfaces until they are dry.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD-HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT ARE NOT PERMITTED

Applications may be made within food-handling establishments. This includes, but not limited to, restaurants, grocery stores, bakeries, bottling plants, canneries and grain mills.

Sites for non-food use in homes, motels, such as: Spray into cracks and crevices, around baseboards and other places. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and in waste containers. Contact directly as many insects as possible. For ants, spray trails and places where ants enter premises. Repeat as necessary for control.

Remove pets, birds and cover fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.

IF INHALED: Remove to fresh air if effects occur, and call physician.

IF SWALLOWED: Do not induce vomiting because of possible hazard. Call a physician immediately.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not contaminate water, food, or feed by storage or disposal or cleaning of equipment. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not re-use the empty container. Wrap container and put in trash collection. Do not puncture or incinerate.

PHYSICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

GENERAL

Use this contact & residual spray as a Hornet & wasp Spray or as a Crack & Crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product only to localized areas where the pests are found or may occur. In food-handling establishments, use only as spot treatment. Spot treatment may encompass crack & crevice treatments by applying small amounts of material directly into openings leading to voids and hollow spaces in walls, equipment legs & bases, or which occur at points between different elements of construction, or between equipment and floors. Equipment capable of delivering a pinstream of spray should be used. Repeat treatment as needed, but not more often than once every 7 days in restaurants and similar food service establishments, or more often than once every 14 days in other types of food-handling establishments.

CONTROL OF WASPS AND HORNETS:

It is preferable to apply this after dark when all the insects have returned to the nest. Insert attached extension tube into actuator to enable you to deliver a pin stream. Aim extension tube at the nest and depress button, continuing to spray until the nest is all covered with the insecticide foam. The insects will now not be able to leave the nest so insert the extension tube into the nest and fill the nest with the insecticide foam.

CONTROL OF CRAWLING INSECTS:

To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Millipedes, Clover Mites, Dermestids, Water bugs, Brown Dog Ticks, Earwig and Carpet Beetles: Apply spray directly into cracks and crevices. Insert attached extension tube into actuator to enable you to deliver a pin stream in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where the above listed insects hide.
