NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered under the Act with the following conditions:

1. Submit/cite all data to the Agency for registration of your product under FIFRA section 2(b), which the Agency requires all registrants of similar products to submit such data.

2. Make the following changes to the label for shipment:

a. Add the phrase "EPA Reg. No. 7571-51."

b. Change the signal word from "extremely flammable" to "flammable":

"extremely flammable" to "flammable"
from fire, sparks, or heat. It may ignite and burn rapidly.
incandescent material. It may ignite and burn rapidly.
130 °F may cause ignition."

3. Submit five (5) copies of the label for registration of the product for shipment. The label must be printed on a final proof.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Contains petroleum distillate. Do not induce vomiting because of aspiration hazard. Avoid inhalation of vapors. Avoid contact with skin and eyes. Avoid contamination of food and feedstuffs. When used in hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patients to room until after ventilation.

Do not use in commercial food processing, preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Do not spray on walls, composition tiles or plastics.

Remove pets, birds and cover fish aquariums before spraying.

Physical or Chemical Hazards

Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Do not induce vomiting because of aspiration hazard.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

IF ON SKIN OR CLOTHING: Wash skin with soap and warm water. Remove contaminated clothing and wash before re-use.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if necessary.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

TOTAL RELEASE DIRECTIONS

Cover exposed foods, dishes and food handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Close doors and windows. Point valve opening away from face and eyes when releasing. Use one unit for each 6,000 cubic feet of unobstructed space. Use additional units for remote rooms or where free flow of mist is not assured. Do not remain in the area during treatment, and ventilate thoroughly before re-entry.

TO OPERATE VALVE: To lock valve in open position for automatic discharge, press valve button all the way down, hooking the catch. Then place fogger on stand or table in the center of the room with valve locked open, placing several layers of newspaper or pad under fogger. Leave building at once and keep building closed for four hours before airing out. Open all doors and windows and allow to air for one-half hour. Repeat spraying in two weeks or when necessary.

To Kill Ticks and Fleas: Destroy pet's old bedding and replace. Use product as above. Pets should be treated with a registered tick and flea control product prior to re-entry. Repeat as necessary to bring infestation under control.

STORAGE ON DISPOSAL

Storage: Store in a cool, dry place away from heat and open flame.

Disposal: Do not re-use empty container. Wrap original container in several layers of newspaper and discard in trash. "Do not puncture or incinerate."
