Subject: Amended Reregistration Label
Product Name: Flying Insect Killer I
EPA Registration Number: 46813-69
EPA Decision Number: 414010, 411881, 410133

Dear Ms. Killoren:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the pyrethrins, MGK and PBO REDs, and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

Please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any CSFs other than those listed below are superseded.

- Basic CSF dated >> 02/23/12

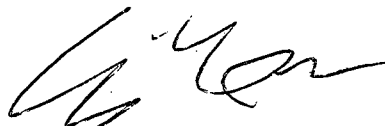

A copy of your label is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be

subject to cancellation in accordance with FIFRA sec. 6(e).

Please note that, should you wish to add/retain a reference to the company's website on your label, the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under section 12 (a)(1)(E) of FIFRA. 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not be substantially different from those claims approved through the registration process. Therefore, should the Agency find, or if it is brought to our attention that a website contains false or misleading statements or claims substantially different from the EPA-approved registration, the website will be referred to EPA's Office of Enforcement and Compliance Assurance (OECA). As an alternative, you may refer consumers to the company's phone number or e-mail address.

If you have any questions about this letter, please contact Gene Benbow at 703-347-0235 or benbow.gene@epa.gov.

Sincerely,

Richard J. Gebken

Flying Insect Killer I

For Indoor Use in the Following Areas: Food Processing Plants, Hotels, Motels, Restaurants, Stores and Other Public Buildings
(except residential areas, hospitals, schools, day-care facilities, nurseries and nursing homes)

Use in Barns, Breweries, Dairies, Canneries, Farm Milk Houses and Food Handling Establishments

Kills Flies, Gnats, Mosquitoes and Small Flying Moths

Active Ingredients:

| | |
|----------------------------------------------|-----------------|
| Pyrethrins | 0.974% |
| Piperonyl Butoxide* | 1.950% |
| N-Octyl bicycloheptene dicarboximide** | 3.146% |
| Other Ingredients*** | 93.930% |
| Total | 100.000% |

* (butyl carbityl)(6-propylpiperonyl) ether and related compounds.

**MGK® 264, Insecticide Synergist

*** Contains petroleum distillate

MGK is a registered trademark of McLaughlin, Gormley, King Company

Keep Out of Reach of Children

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

- This product can only be used in Metered Dispenser Devices
- Not for use in residential areas.
- Do not use in nurseries or rooms where infants, ill, or aged persons are confined.
- Do not place metering device directly over or within 8 feet of exposed food, dishes, utensils, food processing equipment, and food handling or preparation.
- Do not install within 3 feet of air vents.
- Carefully follow directions for the dispenser unit when installing the dispenser and replacing cans or conducting maintenance.
- Do not use in aircraft cabins.
- DO NOT use in areas where fish or reptiles may be exposed to the spray.
- Carefully follow directions for the dispenser unit when installing the dispenser and replacing cans or conducting maintenance.
- When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.

Flying Insect Killer I is designed for use in a wide range of automatic metered dispensers. The dispenser automatically activates the special metered valve every 15 minutes. Within 24 hours following treatment a decrease in the number of flies, gnats, mosquitoes and small flying moths should be noticed and with continued use, annoyance from these pests should also be reduced. Effectiveness of this product is noticeable within one hour after the dispenser is activated. Recommended use is for 24 hours; if less than 24 hours is required, set the dispenser to start one hour before control is desired and to run one hour after control is no longer needed. Factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and control; therefore, consider one unit per 6,000 cubic feet of unobstructed space, making adjustments depending upon specific conditions at the usage site. As with any method of insect control, best results are achieved when insect prevention practices are followed. Carefully follow the directions for the specific dispenser unit of choice when installing the dispenser, replacing cans and conducting required maintenance.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Keep this product dry in a tightly closed (preferably locked) storage area when not in use. Store in a cool, dry, well-ventilated area inaccessible to children and pets and away from heat, sparks and open flames.

Pesticide Disposal: Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Do not puncture or incinerate! If empty: Place in trash or if available offer for recycling. If partly filled: Call your local solid waste agency for disposal instructions.

{Additional/alternate marketing language:}

[Meets CARB VOC regulations for flying insecticides {{25% Content}} {{25% VOC formulation}}. No greasy [oily] residue. Contains the botanical insecticide Pyrethrins [an extract of the Chrysanthemum flower].

Federal regulations prohibit CFC propellants in aerosols.
Contains no CFCs or other ozone depleting substances.]

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors or spray mist. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

All handlers must wear the following

- Long-Sleeved shirt
- Long pants
- Shoes and socks
- Chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber, or Viton (section category E))

User Safety Requirements:

- Following manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:

- User should wash hands before, eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/PPE immediately if pesticide gets inside and after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing. Then wash thoroughly and put on clean clothing.

First Aid
