RE: Changing Name from K-G Crack * Crevice Spray to KG Contact & Residual Insect Killer
Spray I
EPA Reg. No.: 46813-70
Date of Submission: August 10, 2007

Dear Ms. Davis:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated August 10, 2007, for the product K-G Crack & Crevice Spray. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Joyce Edwards of my staff at 703-308-5479.

Sincerely,

A handwritten signature in black ink, appearing to be "Linda Arrington".

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply to classrooms when in use. Do not apply in hospital patient rooms while occupied or in any rooms occupied by the elderly or infirm. Do not use in aircraft cabins. Do not apply to institutions (including libraries or sport facilities) in the immediate area when occupants are present.

This product {{Product name}} works in two ways:

- 1) It kill bugs [pests] [insects] fast on contact; and
- 2) Its residual action keeps on killing German cockroaches and Houseflies for up to 12 weeks [3 months] after you spray.

Shake Well Before Each Use. Hold container upright. Do not spray up into the air. Apply only to surfaces. [Remove protective cap and] direct spray away from face. Hold can 12-15 inches from surface being sprayed. Press button down and spray as directed. Test product in an inconspicuous area before applying. Spray until surface is slightly wet but not to the point of run-off. Over application may cause damage. [This product] {{Product name}} will not stain surfaces or fabrics where water alone causes no damage.

Remove pets and birds and cover fish aquariums before spraying. Do not allow dogs or cats to re-enter treated area until spray deposits have dried. In the home, cover all food processing surfaces before treatment or thoroughly wash after treatment. Cover or remove food prior to treatment.

This product {{Product name}} is intended for use in and around [residential] structures and their immediate surroundings. Permitted areas of use include (but are not limited to): apartment buildings, apartments, atriums, attics, automobiles, basements, bathrooms, boats, cabins, cafeterias, campers, campsites, carports, cat sleeping

5/9

quarters, clothes storage, condominiums, crematoriums, day care centers, decks, dens, dog houses, drive-ins, driveways, drug stores, dumpsters, factories, food/feed areas: of food service establishments, food manufacturing establishments, warehousing establishments and food processing plants; garages, gazebos, homes, hospitals, hotels, indoor and outdoor eating establishments, industrial plants, jails, kennels, kitchens, lanais, living rooms, mausoleums, mess halls, morgues, motels, nursing homes, office buildings, other public buildings, parlors, patios, pet grooming establishments, pet sleeping areas, pet stores, play rooms, porches, prisons, railroad cars, recreational areas, recreational vehicles, restaurants, rooms, schools, ships, solariums, sports stadiums, storage areas, sun rooms, supermarkets, taverns, theaters, trailers, trains, transportation vehicles, truck trailers, trucks, utility rooms, verandas, warehouses, washrooms and zoos.

{Product labeled for industrial/institutional use will include the following heading and four paragraphs on the label:}

Food/Feed Handling Establishments

For control of all labeled pests, applications are permitted in the food/feed areas of food/feed handling and processing establishments as a general surface, spot or crack and crevice treatment.

Do not apply as a space spray. Do not apply in the food/feed handling areas of the facility when the facility is in operation or food/feeds are exposed. Do not apply directly to food/feed products. Cover or remove all food/feed processing and/or handling equipment prior to application. After application in cafeterias, food/feed processing plants and similar facilities wash all equipment, benches, shelving and other surfaces that will contact food or feed. After application in bakeries clean all food contact surfaces with appropriate equipment.

Food/feed handling establishments are defined as places other than private residences in which exposed food/feed is held, process, prepared or served; also included are areas for receiving, storing, packing (canning, bottling, wrapping, boxing), preparing edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) of food and/or feed. Serving areas where food/feed is exposed and the facility is in operation are also considered food/feed areas.

Non-food/non-feed areas include boiler rooms, entries, floor drains (to sewers), garbage rooms, lavatories, locker rooms, machine rooms, mop closets, offices, storage areas (after packing, canning or bottling) and vestibules. Treat all areas that insects inhabit or through which insects may enter.

Indoors

Ants: Spray around ant trails and around doors, windows and other places where ants enter the structure. Repeat [treatment] after 4 weeks or if re-infestation occurs.

Ants, Beetles, Boxelder Bugs, Centipedes, Cockroaches (including adult and immature stages of both non-resistant and organophosphate- and carbamate-resistant strains), Crickets, Firebrats, Fleas, Palmetto Bugs (Waterbugs), Silverfish, Sowbugs and Ticks: Apply as a general surface, spot or crack & crevice treatment to all areas where these pests crawl and hide, especially in cracks and crevices, hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks & stoves, the underside of shelves, drawers, bookcases and similar areas. When pests are driven out spray them directly.

Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors, windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings. Repeat [treatment] after 4 weeks or if re-infestation occurs.

6/9

Carpet Beetles [(Black, Furniture and Varied)] and Dermestid Beetles [(Hide, Larder and Leather)]: Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found. Prior to use, test fabrics in an inconspicuous area for staining. Repeat [treatment] if re-infestation occurs.

Centipedes, Ground Beetles, Pillbugs, Scorpions, Sowbugs and Ticks: Apply around doors, windows, baseboards, storage areas and other places where these pests are found.

Clothes Moths [Webbing Clothes Moths]: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This treatment will not control moth larvae already on clothes. Do not apply to clothing. Repeat [treatment] if re-infestation occurs.

[Crickets, Earwigs, Silverfish and Spiders: Apply to areas where these pests are found.]

Pantry Pests: Beetles, Moths and Weevils [Angoumois Grain Moths, Chocolate Moths, Cigarette Beetles, Drugstore Beetles, Flour Beetles (Confused and Red), Grain Beetles (Merchant, Rusty and Saw-Toothed), Grain Mites, Indian Meal Moths, Lesser Grain Borers, Mediterranean Flour Moths, Rice Weevils, Spider Beetles and Tobacco Moths]: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in crack and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils. Repeat [treatment] if re-infestation occurs.

[Roaches: Spray in cracks and crevices, around baseboards and other hiding places until wet. When driven out spray them directly. Repeat treatment if re-infestation occurs.]

Spiders: Apply along and behind baseboards, to windows, door frames, corners, pipes, storage localities, attics, crawl spaces and other areas where these pests are found.

Ticks (including ticks that may carry Lyme disease) and Fleas on surfaces: Remove pet bedding and destroy or thoroughly clean. Spray pet resting quarters. **Adult fleas** contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not directly spray animals. For best results, treat pets with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to treated area. Spray rugs and carpets where infestations occur. Prior to treatment, test delicate fabrics for staining in an inconspicuous area. Repeat [treatment] after 2-4 weeks or if re-infestation occurs.

Outdoors

Remove all exposed food and cooking utensils. Cover all food handling surfaces and/or thoroughly wash before use and after treatment. Do no use on edible crops. Point nozzle away from face. Hold can on a slight downward angle, approximately 12-15 inches from surface to be sprayed. For best results, spray when air is calm or spray with the wind if a breeze is blowing.

Ants: Spray around ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris. Repeat if ants return.

[Ants: Spray ant trails and hills. If nest can be located, spray surface of nest until wet. Repeat if ants return.]

Ants, Cockroaches, Spiders and Ticks: To control infestations of outdoor pests on outside surfaces, spray foundation of buildings to a height of 2-3 feet where these insects [bugs] [pests] are active and may find entrance.

7/9

Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) eaves, garages, refuse dumps, patios, picnic areas, porches, screens and window frames. Repeat treatment weekly if necessary.

Bees, Hornets and Wasps: Directly spray individuals and vacate areas. Do not treat whole nests with this product.

Crawling Insects (Ants [(including Fire Ants)], Boxelder Bugs, Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Palmetto Bugs (Waterbugs), Scorpions, Spiders and Sowbugs): Directly spray insects [bugs] [pests].

Flying Insects (Gnats, Houseflies, Mosquitoes and Moths): Use only on outdoor surfaces. Spray outside of windows, window & door frames, screens and other areas where these pests may enter the home. Also spray localized resting areas (such as under eaves, porches, surfaces around light fixtures and cords, railings, etc.) where these insects may rest. Insects coming to rest on treated surfaces will be killed. Repeat weekly or when insects return.

Ticks (including Black Legged, Deer and Lone Star): Spray areas where these pests are found.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry (preferably locked) place inaccessible to children and pets and away from heat, sparks and open flame. Protect from freezing. [Do not allow to freeze.] [Do not transport or store below 32°F.]

Disposal: Do not puncture or incinerate! **If empty:** Place in trash or if available offer for recycling. **If partly filled:** Call your local solid waste agency for disposal instructions.
