PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid contact with skin and eyes. Avoid inhalation of spray mist. Avoid contamination of feed and foodstuff.

When using this product as a space spray in food processing plants, foods must be removed or covered during treatment. Apply only when the facility is not in operation. At home and in food processing establishments, cover or removed food prior to treatment. Cover food contact surfaces, benches, utensils, equipment, etc., during treatment or thoroughly clean prior to use with an effective cleaning compound followed by a potable water rinse.

In hospitals or other medical facilities, remove patients prior to treatment. Ventilate treated area for two hours prior to returning patients.

Do not remain in treated areas and ventilate the area after treatment is completed.

Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL OR CHEMICAL HAZARDS

Extremely flammable. Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting. Do not use this product in or around electrical equipment due to possibility of shock hazard.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Keep out of lades, ponds, or streams. Do not contaminate water when disposing of equipment washwater. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Remove protective cap. Aim spray opening away from person. Push button to spray.

BEEF CATTLE OPERATIONS: In barns, close all windows and doors. Apply at the rate of 1 to 2 seconds per 1,000 cubic feet. Deep area closed for 15 minutes following application. For animal use, thoroughly spray entire animal as it is being released to pasture. Do not spray directly towards animal's face or eyes. Repeat application daily or as necessary.

POULTRY OPERATIONS: For poultry houses, close all windows and doors. Spray at the rate of 1 to 2 seconds per 1,000 cubic feet. Keep area closed for 15 minutes following application. Treat daily or as necessary.

HOME AND FOOD PROCESSING AREA USE: For flies, mosquitoes, small flying moths (millers), and gnats: Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated areas. Keep the room closed for at lease 15 minutes. Ventilate the room when treatment is completed. Roaches, Waterbugs, Sowbugs, Spider and Centipedes: spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage area. Spray directly on insects where possible. Repeat as necessary. Ants: spray trails, nest and points of entry. Spray on ants where possible. Repeat as necessary.

STORED PRODUCT INSECTS (accessible stages): Flying Mediterranean flour moths, Indian meal (chocolate) moths, angoumois grain moths: Close doors and windows. Direct aerosol mist to all parts of the room, especially into dark enclosures and around stored product containers where adult moths may be resting. Use a minimum treatment of six to eight seconds per 1,000 cubic feet of space. Keep area closed for 30 minutes after each treatment. Repeat treatment weekly or as flying moths appear. Infested stored food products should be fumigated or treated with an approved product.

DAIRY FARM USE: Milking parlor and milk room. Close all windows and doors. Spray at the rate of 1 to 2 seconds per 1,000 cubic feet. If rooms cannot be closed, double the dosage. Stand in middle of room. Direct spray in all directions. Deep room closed for 15 minutes after treatment. Do not remain in treated area. Ventilate the area after treatment is completed. Cover milking utensils and milk to prevent contamination from spray and dead of falling insects.

STANCHION BARN USE: Walk behind animals and direct spray over backs allowing 1 second per animal. For most effective results, apply each morning.

HOG OPERATIONS: In hog houses, close all windows and doors. Apply at the rate of 1 to 2 seconds per 1,000 cubic feet. Keep area closed for 15 minutes following application. For animal application direct spray over backs and spray for 1 to 2 seconds per hog. Do not spray directly towards animal's face or eyes. Repeat application daily or as necessary.

HORSE BARNS AND STABLES: In horse and pony barns close all windows and doors. Spray at the rate of 1 to 2 seconds per 1,000 cubic feet. Keep area closed for 15 minutes following application. Lightly mist over backs of horses and ponies from a distance of at least 2 feet. Do not spray directly toward horse's face or eyes. Repeat application daily or as necessary.
