US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 47033-3	DATE OF APPLICANCE 00 APR 1988
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT S102P Trichloro-s-triazinetriene	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code) *Best Available Copy*

Cascade Water Services, Inc.
 49 Bloomingdale Road
 Hicksville, NY 11801

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 47033-8" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTANT WITH ITS LABELING.

ACTIVE INGREDIENT:

Trichloro-s-Triazinetrione.....99%

INERT INGREDIENTS1%

TOTAL Available Chlorine.....89%

FOR INDUSTRIAL USE

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

ACCEPTED with COMMENTS in EPA Letter Dated:

APR 06 1988

Under the Federal Insecticide, Fungicide, and Rodenticide Act, registered under EPA Reg. No. 47033-8

IF SWALLOWED: Feed large amounts of milk and/or water and induce vomiting. Call a physician immediately. **IF ON SKIN:** Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. **IF IN EYES:** Flush with cold water for at least 15 minutes. Get immediate medical attention. **IF INHALED:** Remove person to fresh air. Get immediate medical attention.

See Side Panel For Additional Precautionary Statements.

EPA EST. NO. 47033-NY-1
EPA REGISTRATION NO: 47033
Net Contents:

INDUSTRIAL RECIRCULATING WATER COOLING TOWERS AND EVAPORATIVE CONDENSERS

GENERAL DIRECTIONS: For controlling the growth of bacteria and algae in industrial recirculating water cooling towers, and evaporative condensers.

INDUSTRIAL RECIRCULATING COOLING WATER TOWERS AND EVAPORATIVE CONDENSERS: BADLY FOULED SYSTEMS should be cleaned prior to initiating treatment.

1. Initial Dosage - When the system is just noticeably fouled, add 0.4-0.5 lbs. of S102P per 10,000 gallons of water contained in the system. Repeat this dosage if necessary until a free available chlorine level (FAC) of 0.5-1.0 ppm is obtained (as determined by use of a reliable test kit).
2. Maintenance Dosage - To maintain a FAC of .5-1.0 ppm add 0.8-1.6 oz. of S102P per 10,000 gallons of water, daily or as needed.
3. S102P should be added to the system at a point where adequate flow is maintained. Variations in water temperature, chlorine demand and flow rate will affect dissolution rate. Warmer seasons may require an upward adjustment of the FAC.

For Chemical Emergency
Spill, Leak, Fire, Exposure, or Accident
Call CHEMTREC — Day or Night
1-800-424-9300

DANGER: Highly corrosive, causes skin and eye irritation if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield with bare hands. Wear goggles or face shield when cleaning. Only thoroughly clean, dry utensils when handling. Avoid breathing dust and fumes. Wash contaminated clothing before reuse.

CHEMICAL HAZARDS:
DANGER: Strong oxidizing agent. Use only on clean surfaces. Contamination with moisture, dirt, organic matter or any other foreign matter may start a chemical reaction of heat, liberation of hazardous gases, or fire or explosion. Avoid any contact with such as a lighted cigarette. S102P decomposes on heating to liberate heat and harmful gases. Do not use with any inorganic compounds (e.g. calcium hypochlorite). Such combinations may be highly explosive.
ENVIRONMENTAL HAZARD: This pesticide is toxic to fish, birds, and aquatic life. Do not apply to lakes, ponds, or streams by cleaning of equipment.

STORAGE AND DISPOSAL

Keep product dry in tightly closed container in a cool, dry, well ventilated area away from water. Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide wastes are acutely toxic. Follow all label instructions. If these wastes cannot be disposed of as directed, contact your State Pesticide Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Do not reuse empty containers. Do not reuse empty containers by shaking and tapping sides and bottom to dislodge residue. Empty residue into application equipment. Do not dispose of drum in the same manner.

EMERGENCY HANDLING: In case of contamination, do not reseal container. If possible, isolate area. Flood with large volumes of water. Dispose of in approved landfill area.
