

**PRECAUTIONARY STATEMENTS**  
**Hazards to Humans and Domestic Animals**

**CAUTION**

Harmful if swallowed. Remove pets, birds, and cover fish aquarium before spraying.

**Statement of Practical Treatment**

**If Swallowed:** Contact a physician or a Poison Control Center immediately. Do not induce vomiting unless directed to by a physician. Aspiration is a potential hazard.

**If in Eyes:** Flush with plenty of water. Contact a physician if irritation persists.

**If on Skin:** Wash affected areas with plenty of soap and water.

**If inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated.

**Environmental Hazards**

Do not apply outdoors when weather conditions favor drift from area treated. This product is toxic to fish. Do not apply directly to lakes, streams or ponds, tidal marshes, and estuaries. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources.

**Physical and Chemical Hazards**

Do not use or store near heat or open flame.

**Disposal**

Do not reuse empty container. Wrap container and put in trash collection.

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To prepare dilutions the concentrate should first be stirred or agitate well. Add the required amount of concentrate to water and blend thoroughly. This will produce a stable micro-emulsion.

**Indoor Application:**

To control exposed stages of houseflies, stable flies, mosquitoes, gnats, and small flying moths dilute 1 part concentrate in 54 parts water. Apply as a fog or fine mist, directing the spray toward the upper portions of the room and toward windows and other light sources which attract these insects.

**On Horses:**

To control horn flies, house flies, mosquitoes and gnats, dilute at the rate of 1 part concentrate to 119 parts water (1 fluid ounce per gallon) and apply to wet the hair thoroughly with particular attention to the topline, underline, flanks, withers, and other infested areas. Repeat treatment at intervals of 5 to 12 days for small insect populations or as needed when flies are emerging in large numbers.

To control stable flies, horse flies, and deer flies, dilute 1 part concentrate to 29 parts water (4.3 fluid ounces per gallon) and apply a quart per adult animal to wet the hair thoroughly with particular attention to the legs, flanks, barrel, topline, and other body areas commonly attacked by these flies. Repeat treatment each week or as needed.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.

<b>U.S. ENVIRONMENTAL PROTECTION AGENCY</b> OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (HH-567) WASHINGTON, D.C. 20460	EPA REGISTRATION NO.	DATE OF ISSUANCE <b>DEC 7 1982</b>
