

(Chlorinating Solution)

Active Chlorine Content: 91%
Sodium Hypochlorite: 91%
Available Chlorine: 91%

For use in swimming pools, spas, hot tubs, and other recreational water facilities. Flush with water for 15 minutes after use. Avoid contact with skin and eyes. Large quantities of material should be diluted with water. Do not get on face or in eyes. Do not get on clothing. Do not get on children's toys. Do not get on pets. Do not get on plants.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Causes irritation. May cause severe irritation. Avoid contact with eyes. Do not get in eyes on skin or clothing. Wash thoroughly with water. Wear protective gloves when handling this product. Wash hands after handling. Avoid contact with children and pets as far as possible. Do not get on plants or animals.

ENVIRONMENTAL HAZARDS: This product is highly corrosive to metals, streams, or ponds. Treated effluents should not be discharged into streams, rivers, or public waters unless a discharge permit has been obtained. For more information, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: This product is a strong oxidizing agent. Mix only with water according to label directions. Mixing with other chemicals may cause a fire, explosion, or release of toxic gases. Do not mix with ammonia, acids, or other chemicals. Do not mix with other hazardous chemicals. Do not mix with oil, grease, or other hydrocarbons. Do not mix with other chemicals.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

This product is a strong oxidizing agent. It is highly corrosive to metals, streams, or ponds. Treated effluents should not be discharged into streams, rivers, or public waters unless a discharge permit has been obtained. For more information, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR SWIMMING POOL CHLORINATION

For above ground swimming pools, use 1.5 ounces per 10,000 gallons of water. For in-ground swimming pools, use 2.5 ounces per 10,000 gallons of water. This dosage is equivalent to 5.0 mg/l of free chlorine. Do not use in hot tubs or spas.

FOR POOL MAINTENANCE

- A) Adjust pool water pH to 7.2-7.6 (optimum range).
- B) Add approximately 1 ounce per 10,000 gallons of water daily. Do not use in hot tubs or spas.
- C) Do not use in hot tubs or spas.
- D) Do not use in hot tubs or spas.
- E) Do not use in hot tubs or spas.
- F) Do not use in hot tubs or spas.
- G) Do not use in hot tubs or spas.
- H) Do not use in hot tubs or spas.
- I) Do not use in hot tubs or spas.
- J) Do not use in hot tubs or spas.

STORAGE AND DISPOSAL: Store in a cool, dry place. Do not store in direct sunlight. Do not store in a hot, humid area. Do not store in a poorly ventilated area. Do not store in a confined space. Do not store in a room with a fire hazard. Do not store in a room with a flammable liquid. Do not store in a room with a flammable gas. Do not store in a room with a flammable dust. Do not store in a room with a flammable fiber. Do not store in a room with a flammable metal. Do not store in a room with a flammable polymer. Do not store in a room with a flammable plastic. Do not store in a room with a flammable rubber. Do not store in a room with a flammable wood. Do not store in a room with a flammable paper. Do not store in a room with a flammable textile. Do not store in a room with a flammable food. Do not store in a room with a flammable drug. Do not store in a room with a flammable chemical. Do not store in a room with a flammable biological material. Do not store in a room with a flammable radioactive material. Do not store in a room with a flammable nuclear material. Do not store in a room with a flammable explosive material. Do not store in a room with a flammable incendiary material. Do not store in a room with a flammable oxidizing material. Do not store in a room with a flammable reducing material. Do not store in a room with a flammable toxic material. Do not store in a room with a flammable corrosive material. Do not store in a room with a flammable irritant material. Do not store in a room with a flammable sensitizing material. Do not store in a room with a flammable carcinogenic material. Do not store in a room with a flammable mutagenic material. Do not store in a room with a flammable teratogenic material. Do not store in a room with a flammable reproductive toxic material. Do not store in a room with a flammable developmental toxic material. Do not store in a room with a flammable immunotoxic material. Do not store in a room with a flammable neurotoxic material. Do not store in a room with a flammable hepatotoxic material. Do not store in a room with a flammable nephrotoxic material. Do not store in a room with a flammable cardiotoxic material. Do not store in a room with a flammable hematotoxic material. Do not store in a room with a flammable immunotoxic material. Do not store in a room with a flammable neurotoxic material. Do not store in a room with a flammable hepatotoxic material. Do not store in a room with a flammable nephrotoxic material. Do not store in a room with a flammable cardiotoxic material. Do not store in a room with a flammable hematotoxic material.
