**NEW...SEABRIGHT™ Roach Baits**

**SEABRIGHT™ Roach Baits** use a new technology to attract and kill roaches: **SEABRIGHT™ Roach Baits** can be easily placed in kitchens, in bathrooms, or other places where roaches have been seen and that are inaccessible to children and pets.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product may be used in homes, restaurants, markets, schools, warehouses, factories, offices, hotels, motels, hospitals, nursing homes, garages, grocery stores, apartment buildings, new construction, industrial plants, theaters, ships, boats, trains, trucks, yachts, camps, mobile homes, buses, zoos, kennels, military bases, libraries, utilities, and sewers.

**USE RESTRICTIONS:** Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs.

**APPLICATION DIRECTIONS**

1. Remove all 12 **SEABRIGHT™ ROACH BAITS** from this package. **NOTE:** For best results, all baits must be used at once.
2. Place all 12 baits where roaches have been seen, such as under kitchen sink, under or behind refrigerator, under stove, in cupboards, etc. We recommend placing at least 10 baits in the kitchen, and 2 in the bathroom. **NOTE:** For extremely heavy infestations, we recommend using more baits and placing them in additional areas such as closets and laundry rooms. Do not use bug sprays around **SEABRIGHT™ Roach Baits** or the bait will be rendered ineffective.
3. To attach Baits upside down or to vertical surfaces, use the double-sided sticky-tapes included in this package. To apply sticky-tapes, peel backing paper from one side and affix to Bait. Remove paper from other side and stick bait to walls, baseboards, inside cupboard surfaces, and near plumbing fixtures. You will not need sticky-tapes for all Baits.
4. **SEABRIGHT™ Roach Baits** start working immediately and you should see no more roaches within six weeks, unless you have a source of reinfestation. Since the baits work 24 hours a day, day-in and day-out, they should be replaced every three months to prevent roach infestations from building up.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**INGREDIENT STATEMENT**

Active Ingredient: Boric Acid.....51.24%  
Inert Ingredient.....48.76%

**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals.  
Caution: Harmful if swallowed. May cause eye irritation.  
Avoid eye contact. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT**

Immediately contact Poison Control Center or physician if swallowed.  
If eye contact occurs, flush eyes with plenty of water.  
Get medical attention if irritation persists.

**STORAGE AND DISPOSAL**

**STORAGE:** Store only in original container, in a dry place inaccessible to children and pets.  
**DISPOSAL:** Do not reuse empty container on individual bait stations.  
Securely wrap in newspaper and discard in trash.

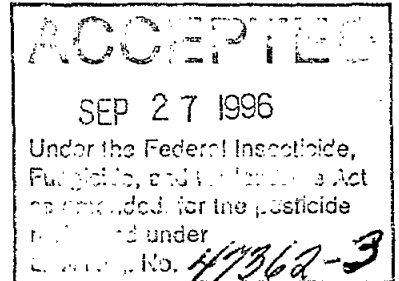

**EFFECTIVENESS GUARANTEE**
