Formulation POQ-451 Cleaner, Deodorant, and Disinfectant

DILUTION 1:64 2 OUNCES PER GALLON OF WATER
OR 1/4 CUP PER GALLON OF WATER

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR DISINFECTING: To disinfect, pre-clean surfaces intended for treatment, then apply to walls, floors, garbage cans, and other hard (inanimate), nonporous, pre-cleaned surfaces such as tables, chairs, countertops, sinks, bathroom fixtures, and bed frames with a cloth, mop or mechanical spray device to thoroughly wet surfaces for a contact time of 10 minutes; then wipe with a cloth or let air dry. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when used solution becomes visibly dirty.

For use in federally inspected meat and poultry plants as a compound for use on all surfaces in inedible product processing areas; and exterior areas.

FOR DEODORIZING AND CLEANING: Remove gross soil, apply the recommended solution with cloth or mop to thoroughly wet surfaces. Remove soil and thoroughly rinse with potable water before reuse.

MILDEWSTATIC PERFORMANCE: Effectively inhibits the growth of mold and mildew and the odors caused by them when applied to pre-cleaned hard, non-porous surfaces (as indicated above). Allow to dry on surface and repeat weekly or when mildew growth returns. Dilute 1/4 cup to one gallon of water.

NO-WAX FLOORS: Cleans floors bright with virtually no filming or dulling the gloss. Add 1/4 cup to 1/2 pail (1 gallon) warm water, wash floor with sponge or mop and rinse.

WAXED FLOORS: Use same as above, usually not necessary to rinse.

BATHROOM/KITCHEN: Porcelain, sinks, toilet bowls, bathtubs, refrigerator, appliances, countertops, painted woodwork, and walls, just add 1/4 cup to 1 gallon warm water. Apply with cloth or sponge and rinse. For heavily soiled areas, a pre-cleaning step is recommended. Prepare a fresh solution for each use.

Effective for disinfecting pre-cleaned, hard, non-porous, inanimate surfaces in schools, and industries. Effective against *Staphylococcus aureus*, and *Salmonella choleraesuis* according to current AOAC Use-dilution Standards at 1:64 dilution.
