DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR DISINFECTING: To disinfect, preclean surfaces intended for treatment, then apply to walls, floors, garbage cans, and other hard (inanimate), non-porous, precleaned surfaces such as tables, chairs, countertops, sinks, bathroom fixtures, and bed frames with a cloth, mop or mechanical spray device to thoroughly wet surfaces for a contact time of 10 minutes; then wipe with a cloth or let air dry. Prepare a fresh solution daily or when used solution becomes visibly dirty.

For use in federally inspected meat and poultry plants as a compound for use on all surfaces in inedible product processing areas, and exterior areas.

FOR DEODORIZING AND CLEANING: Remove gross soil, apply the recommended solution with cloth or mop to thoroughly wet surfaces. Remove soil and thoroughly rinse with potable water before reuse.

MILDEWSTATIC PERFORMANCE: Effectively inhibits the growth of mold and mildew and the odors caused by them when applied to precleaned hard, non-porous surfaces (as indicated above). Allow to dry on surface and repeat weekly or when mildew growth returns. Dilute ½ cup to one gallon of water.

NO-WAX FLOORS: Cleans floors bright with virtually no filming or dulling the gloss. Add ¼ cup to 1 gallon warm water, wash floor with sponge or mop and rinse.

WAXED FLOORS: Use same as above, usually not necessary to rinse.

BATHROOM/KITCHEN: Porcelain, sinks, toilet bowls, bathtubs, refrigerator, appliances, countertops, painted woodwork, and walls, just add ¼ cup to 1 gallon warm water and rinse. Apply with cloth or sponge. For heavily soiled areas, a precleaning step is recommended. Prepare a fresh solution for each use.

FOR DISINFECTION OF TOILET BOWLS: Flush toilet, then add 6 ounces directly to the bowl water. Swab bowl completely using a scrub brush making sure to get under rim and hold for at least 10 minutes then flush.
