Victor® Ant Trap is formulated with Sodium Tetraborate Decahydrate (Borax) in a special bait matrix which is highly attractive to both sweet and grease feeding ants. Foraging worker ants enter the trap, pick up the bait and take it back to the nest where they feed the entire colony- including the queen. Victor® Ant Trap not only works to kill the ants you see, but also the ones in the colony you don't see.

**Special metal container helps protect pets and children.**
