Subject: Label Notification(s) for Pesticide Registration Notices 2007-4 and 98-10 1. Updated warranty statement

Dear Mr. Mongiovi:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 and 98-10 dated September 17, 2009 for:

EPA Registration 47629-5Victor Liquid Ant KillerEPA Registration 47629-6Victor Ant TrapEPA Registration 47629-7Victor Liquid Ant Killing SystemEPA Registration 42697-58Safer Brand Garden Fungicide, Insecticide, &
Miticide Ready-to-Use Spray

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 2007-4 and 98-10 and finds that the label changes requested falls within the scope of PR Notice 2007-4 and 98-10. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on <u>nonrefillable</u> containers. The code may appear either on the label (and can be added by nonnotification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

Linda Arrington Notifications & Minor Formulations Team Leader Registration Division (7505P) Office of Pesticide Programs

Victor® Ant Trap is formulated with Sodium Tetraborate Decahydrate (Borax) in a special bait matrix which is highly attractive to both sweet and grease feeding ants. Foraging worker ants enter the trap, pick up the bait and take it back to the nest where they feed the entire colony- including the queen. Victor® Ant Trap not only works to kill the ants you see, but also the ones in the colony you don't see.

Special metal container helps protect pets and children.
