Subject: Label Notification(s) for Pesticide Registration Notices 2007-4 and 98-10  
1. Updated warranty statement

Dear Mr. Mongiovi:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 and 98-10 dated September 17, 2009 for:

|                                  |   |
|----------------------------------|---|
| <b>EPA Registration 47629-5</b>  | <b>Victor Liquid Ant Killer</b>   |
| <b>EPA Registration 47629-6</b>  | <b>Victor Ant Trap</b>  |
| <b>EPA Registration 47629-7</b>  | <b>Victor Liquid Ant Killing System</b>   |
| <b>EPA Registration 42697-58</b> | <b>Safer Brand Garden Fungicide, Insecticide, &amp; Miticide Ready-to-Use Spray</b> |

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 2007-4 and 98-10 and finds that the label changes requested falls within the scope of PR Notice 2007-4 and 98-10. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

Net Contents: 1.5 fl. oz. (44.36 ml)

---

**MASTER LABEL - BACK PANEL (Page 1 of 2)**

Victor® Liquid Ant Killing System is formulated with Sodium Tetraborate Decahydrate (Borax) in a special bait matrix which is highly attractive to ants. Foraging worker ants pick up the bait and take it back to the nest where they feed the entire colony- including the queen. Victor® Liquid Ant Killing System not only works to kill the ants you see, but also the ones in the colony you don't see. Use Victor® Liquid Ant Killing System directly from the bottle, or on the handy bait plates provided when surface protection is desired.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**For control of sugar feeding ants** including Pharaoh Ants, Argentine Ants, Ghost Ants, Cornfield Ants, Pavement Ants, Acrobat Ants, White-footed Ants, Little Black Ants, Odorous-House Ants, Crazy Ants, Big-Headed Ants, and other sweet-eating ants.

**For Use In and Around:** Homes, Hospitals, Restaurants, Apartments, Grocery Stores, Institutional Buildings, Schools, Cafeterias, Storage Areas, Food Processing Plants, Mobile Homes, Boats, Military Bases, Theaters, Nursing Homes, and on Military, Commercial, and Cruise Ships.

**Do Not Use** in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed or foodstuffs. Do not apply to food or food packaging. Apply only in areas inaccessible to children and pets.

**Easy to use**

1. Tear off handy bait plates provided on back of outer package.
2. Position bait plates in areas where ants are seen.
3. Place a pea-sized drop of Victor® Liquid Ant Killing System onto the center of each bait plate.
4. Replace bait on bait plates as needed until ants disappear.
5. When ants are no longer seen, remove bait plates, wrap in newspaper and discard.

**Indoors:** Victor® Liquid Ant Killing System can also be applied to small pieces of waxed paper, cardboard, or foil which can be placed where ants are seen, such as the edges of sinks, tubs, window sills, under food cabinets, in cracks and crevices along floors and baseboards, behind the refrigerator and stove, around water pipes and in corners.

**Outdoors:** Place a few drops of Victor® Liquid Ant Killing System near ant trails, nests or where ants are seen entering the building. Victor® Liquid Ant Killing System can also

**MASTER LABEL - FRONT PANEL (Page 1 of 1)**

be applied to small pieces of waxed paper, cardboard, or foil and placed where ants are seen. Small drops can be applied directly to ant nests and in cracks and crevices along window and doorsills. Ants typically follow defined trails from the nest to food and water. Placing Victor® Liquid Ant Killing System as close to these trails as possible will improve control.

**STORAGE & DISPOSAL**

**PESTICIDE STORAGE:** Store only in original container in a cool, dry area inaccessible to children and pets. Protect from freezing and heat. Keep container tightly closed to prevent evaporation.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Non-refillable container. Do not reuse or refill this container. **If Empty:** ~~Do not reuse this container.~~ Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency or (800) CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**Note:** Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
