MASTER LABEL - BACK PANEL (Page 1 of 2)

Victor® Liquid Ant Killing System is formulated with Sodium Tetraborate Decahydrate (Borax) in a special bait matrix which is highly attractive to ants. Foraging worker ants pick up the bait and take it back to the nest where they feed the entire colony- including the queen. Victor® Liquid Ant Killing System not only works to kill the ants you see, but also the ones in the colony you don't see. Use Victor® Liquid Ant Killing System directly from the bottle, or on the handy bait plates provided when surface protection is desired.
