Lititz, PA 17543-0327

$\frac{345}{1155}$  5-827072  
 $\frac{366}{1155}$  5-827071

Attention: Mr. Chad Mateer

- Subject** Difenacoum Rat and Mouse Pellets  
EPA Reg. No. 47629-14  
Your amended application of November 26, 2007  
Your amended application of December 10, 2007  
Your resubmissions of January 16, March 7, 20, and 26, 2008
- Purpose** The purpose of these submissions, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is to revise your label, change package size/net contents, and add an alternate Confidential Statement of Formula (CSF), for this product.
- Labeling** The labeling submitted with the above letter is acceptable, provided that you submit one (1) copy of final printed labeling to us, before you ship the product.
- CSF** We have reviewed your alternate CSF, dated January 15, 2008, for this product and have found it acceptable with your submission of March 26, 2008.
- Existing stocks** Stocks of product with existing labels may be used for eighteen (18) months.
- Consequence for non-compliance** If these condition are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

2/16

**Questions** If you have questions about this letter, please contact me at 703-305-5407 (by phone), 703-305-6596 (by fax), or [peacock.dan@epa.gov](mailto:peacock.dan@epa.gov) (by E-Mail).

Sincerely yours,

Daniel B. Peacock, Biologist  
Insecticide-Rodenticide Branch  
Registration Division (7504C)

**Enclosures** 1. Stamped Label  
2. Minimum Type Size Requirements for Final Printed Labels

**Letter** Dan Peacock, Flash Drive, 2gb, P:\Documents\Word, WP, Excel,  
etc\Difenacoum\47629-14\47629-14, label changes, alt CSF, 4-2-2008.doc

**PRECAUTIONARY STATEMENTS:**

Hazards to Humans and Domestic Animals

**CAUTION:** Harmful if swallowed.

<b>FIRST AID</b>	
Have label with you when obtaining treatment advice.	
<b>If swallowed:</b>	<ul style="list-style-type: none"><li>- Call a poison control center or doctor immediately for treatment advice.</li><li>- Have person sip a glass of water if able to swallow.</li><li>- Do not induce vomiting unless told to do so by the poison control center or doctor.</li></ul>
<b>NOTE TO PHYSICIAN OR VETERINARIAN</b>	
If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K <sub>1</sub> intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.	

**ENVIRONMENTAL HAZARDS:**

This product is toxic to fish, birds and other wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.

**DIRECTIONS FOR USE:**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL!:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

**IMPORTANT:** Do not expose children, pets, or nontarget animals to rodenticides. To help to prevent accidents:

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

5/16

**MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 2 of 5)**  
*[Rat and Mouse Control – Pellet and Pellet Filled Tray Products]*

3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

**USE RESTRICTIONS:** This product may be used to control norway rats, roof rats, and house mice only at the **Urban** and **Non-urban** sites identified below. Do not use this product in sewers. Do not place bait near to or inside of ventilation duct openings. Do not contaminate water, food, feed, food or feed handling equipment, milk or meat handling equipment, or any area where there is a possibility of contaminating food, feed, milk, or meat, or surfaces that come into contact with food, feed, milk, or meat. All placements of this product in USDA-inspected facilities must be in tamper-resistant bait stations. Do not broadcast bait. Wear water-resistant gloves when handling bait.

**Urban Areas:** This product may only be used in and around homes, industrial, commercial, and public buildings, and similar man-made structures; in transport vehicles (ships, trains, and aircraft) and in and around related port or terminal buildings; and in alleys. All outdoor bait placements must be made in tamper-resistant bait stations, locked and secured as necessary, unless children, pets, domestic animals, and nontarget wildlife are reliably denied access to the bait placement locations.

**Non-urban Areas:** This product may only be used inside of homes, and agricultural buildings.

**SELECTION OF TREATMENT AREAS:** Determine areas where rats will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, beside burrows, in corners and concealed places, between floors and walls, or in locations where rats or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

***[Pellet Products Only]***

**APPLICATION DIRECTIONS:**

*[Qualifier statement for 4 oz product]* This package contains enough bait (4 ounces) to kill 1 to 3 rats.

*[Qualifier statement for 8 oz product]* This package contains enough bait (8 ounces) to kill 2 to 6 rats.

*[Qualifier statement for 12 oz product]* This package contains enough bait (12 ounces) to kill 3 to 9 rats.

EPA Reg. No. 47629-14

Label Amendment – (Revision of December 10, 2007 Amendment as per Agency Comments dated February 27, 2008)

March 7, 2008

Page 4 of 14

**MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 3 of 5)**

*[Rat and Mouse Control – Pellet and Pellet Filled Tray Products]*

**Norway Rats and Roof Rats:** Apply 4 to 16 ounces of bait per placement, using tamper-resistant bait stations as require under “IMPORTANT”. Space placements at intervals of 15 to 30 feet in infested areas pertaining to structures. Maintain an uninterrupted supply of fresh bait for at least 10 days or until fresh signs of feeding by rats cease to appear.

**House Mice:** Apply ¼ to ½ ounce of bait per placement, using tamper-resistant bait stations as require under “IMPORTANT”. Space placements at intervals of 8 to 12 feet in infested areas pertaining to structures. Larger quantities (up to 2 ounces) may be made in areas of extremely high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until fresh signs of feeding by mice cease to appear.

**Follow-up:** Replace contaminated or spoiled bait immediately. Using water-resistant gloves, collect and properly dispose of dead animals and leftover bait, as well as any bait that has become accessible to non-target animals. To discourage re-infestation, limit sources of rodent food, water, and harborage as much as possible. If re-infestation does occur, repeat treatment. For continuous sources of infestation, set up permanent bait stations and replenish them as needed.

***[Pellet Filled Tray Products Only]***

**APPLICATION DIRECTIONS:**

*[Qualifier statement for 4.5 oz (3 x 1.5 oz. pellet trays) product]* This package contains enough bait (6.0 ounces) to kill 1 to 3 rats.

*[Qualifier statement for 6.0 oz (4 x 1.5 oz. pellet trays) product]* This package contains enough bait (6.0 ounces) to kill 1 to 4 rats.

*[Qualifier statement for 7.5 oz (5 x 1.5 oz. pellet trays) product]* This package contains enough bait (7.5 ounces) to kill 1 to 5 rats.

*[Qualifier statement for 9.0 oz (6 x 1.5 oz. pellet trays) product]* This package contains enough bait (9.0 ounces) to kill 2 to 6 rats.

*[Qualifier statement for 10.5 oz (7 x 1.5 oz. pellet trays) product]* This package contains enough bait (10.5 ounces) to kill 2 to 7 rats.

*[Qualifier statement for 12.0 oz (8 x 1.5 oz. pellet trays) product]* This package contains enough bait (12.0 ounces) to kill 3 to 9 rats.

**MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 4 of 5)**  
*[Rat and Mouse Control – Pellet and Pellet Filled Tray Products]*

**Norway Rats and Roof Rats:** Use 3 to 10 [bait (filled)] [Peel N’ Place bait] trays per placement, using tamper-resistant bait stations as required under “IMPORTANT”. Space placements at intervals of 15 to 30 feet in infested areas pertaining to structures. Maintain an uninterrupted supply of fresh bait for at least 10 days or until fresh signs of feeding by rats cease to appear.

**House Mice:** Open [bait (filled)] [Peel N’ Place bait] tray and apply ¼ to ½ ounce of bait per placement, using tamper-resistant bait stations as require under “IMPORTANT”. Space placements at intervals of 8 to 12 feet in infested areas pertaining to structures. Larger quantities (up to one 1.5 ounce [bait (filled)] [Peel N’ Place bait] tray) may be placed in areas of extremely high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until fresh signs of feeding by mice cease to appear.

**Follow-up:** Replace contaminated or spoiled bait immediately. Using water-resistant gloves, collect and properly dispose of dead animals and leftover bait, as well as any bait that has become accessible to non-target animals. To discourage re-infestation, limit sources of rodent food, water, and harborage as much as possible. If re-infestation does occur, repeat treatment. For continuous sources of infestation, set up permanent bait stations and replenish them as needed.

<b>STORAGE AND DISPOSAL [Household Label]</b>
<b>STORAGE:</b> Store in original container in a cool, dry place inaccessible to children and pets. <b>DISPOSAL: If empty:</b> Do not reuse this container. Place in trash or offer for recycling if available. <b>Partly Filled Containers and Spoiled and Unconsumed Bait:</b> Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
<b>STORAGE AND DISPOSAL [Non-Household Label]</b>
Do not contaminate water, food or feed by storage or disposal.
<b>STORAGE:</b> Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. <b>PESTICIDE DISPOSAL:</b> Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility. <b>CONTAINER DISPOSAL:</b> Do not reuse empty container. Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration or, if allowed by state and local authorities, by burning. If burned stay out of smoke. Call your Local Waste Agency for any questions on proper disposal.

**NOTICE:** Buyer assumes all risks of use, storage or handling of this product not in accordance with label directions.
