Attention: Mr. Chad Mateer

**Subject** Bromethalin Rat & Mouse Block  
EPA Reg. No. 47629-11  
Bromethalin 0.01% Pellet  
EPA Reg. No. 47629-13  
Difenacoum Rat and Mouse Pellets  
EPA Reg. No. 47629-14  
Difenacoum Rat and Mouse Block  
EPA Reg. No. 47629-16  
Difenacoum Rat and Mouse Place Packs ✓  
EPA Reg. No. 47629-17  
Your amended applications of July 8, 2008

**Purpose** The purpose of each submission under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is to revise your label, to increase the additional package sizes/net contents for the above products.

**Review** All of the proposed additional packages sizes meet or exceed the minimum application amounts approved for claims of control of both rats and mice.

**Conditions of Approval**

This registration is not consistent with the Agency's May 28, 2008, "Risk Mitigation Decision for Ten Rodenticides." EPA anticipates cancellation of those existing products that are not consistent with the Risk Mitigation Decision to occur no later than June 4, 2011. In the meantime, EPA is approving new registrations and amendments to existing registrations of rodenticide bait products, on a time-limited basis, so long as the registrations do not present greater risks of unreasonable adverse effects than existing products. Accordingly, this registration is approved only subject to the condition that the registration shall expire on June 4, 2011. This condition of registration may be amended in conjunction with amendments to conform to the Risk Mitigation Decision. Absent such amendments, product released for shipment by the registrant after June 4, 2011, would be in violation of FIFRA.

**Label**

For each product, the labeling submitted with the above letter is acceptable, provided that you submit one (1) copy of final printed labeling to us, with the following changes, before you ship the product.

Under "STORAGE AND DISPOSAL", revise your "Disposal" text [Household Label] and revise "Container Disposal" to "Container Handling" [Non-Household Label] followed by instructions for each type of container. In general, you will be adding the new text required by the "Container Regulations" (40 CFR 156.140 - .159) and explained in PRN 2007-4 to the existing container disposal instructions.

We have suggested an acceptable text in Enclosure 2. Contact us if you need assistance in developing correct text. Also, all products distributed or sold in nonrefillable containers will need batch codes on the label or the container.

**Consequence for non-compliance**

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of these product constitutes acceptance of these conditions.

**Questions**

If you have questions about this letter, please contact me at 703-305-5407 (by phone), 703-305-6596 (by fax), or [peacock.dan@epa.gov](mailto:peacock.dan@epa.gov) (by E-Mail).

Sincerely yours,

Daniel B. Peacock, Biologist  
Insecticide-Rodenticide Branch  
Registration Division (7504C)

**Enclosures**

1. Stamped Label
2. Suggested "Storage and Disposal" text for Woodstream's products: 47629-11, 47629-13, 47629-14, 47629-16, and 47629-17.
3. Minimum Type Size Requirements for Final Printed Labels

**Letter**

D:\4G Dan\Documents\Word\Bromethalin\47629-11,-13,-14,-16,-17\47629-11,-13,-14,-16,-17,20080708.pack-size adm,11-18-2008.doc

Enclosure 2. Suggested "Storage and Disposal" text for Woodstream's products: 47629-11, 47629-13, 47629-14, 47629-16, and 47629-17.<sup>1</sup>

**STORAGE AND DISPOSAL: [Household Labels]**

Do not contaminate water, food or feed by storage or disposal.<sup>2</sup>

**STORAGE:** Store in original container in a cool, dry place inaccessible to children and pets.

**DISPOSAL: If empty:** Nonrefillable Container. Do not reuse this container. Place in trash or offer for recycling if available. **Partly Filled Containers and Spoiled and Unconsumed Bait:** Call your local solid waste agency or 1-800-CLEANUP<sup>3</sup> for disposal instructions. Never place unused product down any indoor or outdoor drain.

**STORAGE AND DISPOSAL: [Non-Household Labels]**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store only in original container in a cool, dry place inaccessible to children, and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product, and spoiled and unconsumed bait, may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** Nonrefillable Container. Do not reuse or refill this container. Offer for recycling if available or dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke. Call your Local Waste Agency for any questions on proper disposal.

---

<sup>1</sup> Staff personnel for pesticide container regulations reviewed this text.

<sup>2</sup> The use of "Do not contaminate water, food or feed by storage or disposal." is not required for a household product.

<sup>3</sup> According to PR Notice 2007-1, the use of "1-800-CLEANUP" is optional.

**Net Contents:**

3.0 oz (3 X 1.0 ounce bait blocks) *[to]* 50 lb/800 oz (800 X 1.0 ounce bait blocks)

**MASTER LABEL – BACK PANEL (Page 1 of 4)**

**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals

**CAUTION:** Harmful if swallowed.

<b>FIRST AID</b>	
Have label with you when obtaining treatment advice.	
<b>If swallowed:</b>	<ul style="list-style-type: none"> <li>- Call a poison control center or doctor immediately for treatment advice.</li> <li>- Have person sip a glass of water if able to swallow.</li> <li>- Do not induce vomiting unless told to do so by the poison control center or doctor.</li> </ul>
<b>NOTE TO PHYSICIAN OR VETERINARIAN</b>	
If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K <sub>1</sub> intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.	

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds and other wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

**IMPORTANT:** Do not expose children, pets, or nontarget animals to rodenticides. To help to prevent accidents:

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

70910

---

**MASTER LABEL – BACK PANEL (Page 2 of 4)**

**USE RESTRICTIONS:** This product may be used to control Norway rats, roof rats, and house mice only at the **Urban** and **Non-urban** sites identified below. Do not use this product in sewers. Do not place bait near to or inside of ventilation duct openings. Do not contaminate water, food, feed, food or feed handling equipment, milk or meat handling equipment, or any area where there is a possibility of contaminating food, feed, milk, or meat, or surfaces that come into contact with food, feed, milk, or meat. All placements of this product in USDA-inspected facilities must be in tamper-resistant bait stations. Wear water-resistant gloves when handling bait.

**Urban Areas:** This product may only be used in and around homes, industrial, commercial, and public buildings, and similar man-made structures; in transport vehicles (ships, trains, and aircraft) and in and around related port or terminal buildings; and in alleys. All outdoor bait placements must be made in tamper-resistant bait stations, locked and secured as necessary, unless children, pets, domestic animals, and nontarget wildlife are reliably denied access to the bait placement locations.

**Non-urban Areas:** This product may only be used inside of homes, and agricultural buildings.

**SELECTION OF TREATMENT AREAS:** Determine areas where rats and mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, beside burrows, in corners and concealed places, between floors and walls, or in locations where rats or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

**APPLICATION DIRECTIONS:**

[Qualifier statement for 3 oz product] This package contains enough bait (3 ounces) to kill 1 to 2 rats.  
[Qualifier statement for 4 oz product] This package contains enough bait (4 ounces) to kill 1 to 3 rats.  
[Qualifier statement for 5 oz product] This package contains enough bait (5 ounces) to kill 1 to 3 rats.  
[Qualifier statement for 6 oz product] This package contains enough bait (6 ounces) to kill 2 to 4 rats.  
[Qualifier statement for 7 oz product] This package contains enough bait (7 ounces) to kill 2 to 5 rats.  
[Qualifier statement for 8 oz product] This package contains enough bait (8 ounces) to kill 2 to 6 rats.  
[Qualifier statement for 9 oz product] This package contains enough bait (9 ounces) to kill 2 to 6 rats.  
[Qualifier statement for 10 oz product] This package contains enough bait (10 ounces) to kill 3 to 7 rats.  
[Qualifier statement for 11 oz product] This package contains enough bait (11 ounces) to kill 3 to 8 rats.  
[Qualifier statement for 12 oz product] This package contains enough bait (12 ounces) to kill 3 to 9 rats.  
[Qualifier statement for 13 oz product] This package contains enough bait (13 ounces) to kill 3 to 9 rats.  
[Qualifier statement for 14 oz product] This package contains enough bait (14 ounces) to kill 3 to 10 rats.

**Norway Rats and Roof Rats:** Apply 3 to 10 bait blocks per placement, using tamper-resistant bait stations as required under “**IMPORTANT**”. Space placements at intervals of 15 to 30 feet in infested areas pertaining to structures. For treating burrows, place 1 to 4 bait blocks deep into each active burrow. Check treated burrows each morning and evening to make sure that baits have not been pushed out of burrows. Maintain an uninterrupted supply of fresh bait for at least 10 days or until fresh signs of feeding by rats cease to appear.

**MASTER LABEL – BACK PANEL (Page 3 of 4)**

**House Mice:** Apply 1 bait block per placement, using tamper-resistant bait stations as required under “IMPORTANT”. Space placements at intervals of 8 to 12 feet in infested areas pertaining to structures. Larger placements, up to 2 bait blocks, may be used at points of extremely high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until fresh signs of feeding by mice cease to appear.

**Follow-up:** Replace contaminated or spoiled bait immediately. Using water-resistant gloves collect and properly dispose of dead animals and leftover bait, as well as any bait that has become accessible to non-target animals. To discourage re-infestation, limit sources of rodent food, water, and harborage as much as possible. If re-infestation does occur, repeat treatment. For continuous sources of infestation, set up permanent bait stations and replenish them as needed.

**STORAGE AND DISPOSAL:**

*[Household Label]*

**STORAGE:** Store in original container in a cool, dry place inaccessible to children and pets.

**DISPOSAL: If empty:** Do not reuse this container. Place in trash or offer for recycling if available.

**Partly Filled Containers and Spoiled and Unconsumed Bait:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**STORAGE AND DISPOSAL:**

*[Non-Household Label]*

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Do not reuse empty container. Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration or, if allowed by state and local authorities, by burning. If burned stay out of smoke. Call your Local Waste Agency for any questions on proper disposal.

**MASTER LABEL – OPTIONAL CLAIMS (Page 1 of 1)**

**[Additional - Optional Marketing/Advertising Claims]**

- Palatable bait formulation
- Palatable formulation
- Formulated for Norway rat, roof rat, and house mice control
- Contains Difenacoum.
- Controls Norway rats, roof rats, and house mice
- 0.005% Difenacoum block
- Demonstrated control of Norway rats, roof rats, and house mice
- Kills Norway rats, roof rats, and house mice
- Effectively controls mice/rats
- (Kills)(Controls)(mice)(&)(rats) both inside and outside the home
- New! *[claim valid for 6 months from date of first stamped "accepted" label only]*
- Designed to reduce hand contact
- Patented end caps reduce hand contact
- Easy pop out bait compartments
- Easy to dispense bait compartments
- Individually sealed bait blocks, allow you to use exactly what you need
- For indoor and outdoor use.
- Ready to use
