

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

M102 detergent/disinfectant has been designed specifically for hospitals, nursing homes, schools, and other institutions where housekeeping is of prime importance.

DISINFECTION: To disinfect hard inanimate surfaces (such as walls, floors, tables, tops), add 1 ounce M102 detergent/disinfectant per gallon of water. Apply solution with mop, cloth, or sponge or mechanical sprayer so as to wet thoroughly. Allow to remain wet for 10 minutes and then let air dry.

To disinfect toilet bowls, flush toilet, add 1 ounce M102 detergent/disinfectant directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAT: To control mold and mildew on pre-cleaned, hard non-porous surfaces (such as floors, walls, tile tops) add 1 ounce M102 per gallon of water. Apply solution with a cloth, mop, or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

PRECAUTIONARY STATEMENTS

Hazard to Human and Domestic Animals

DANGER

Keep Out of Reach of Children. Causes eye and skin irritation. Do not get in eyes, skin or on clothing. Harmful if swallowed.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, Lysol solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

M102 is a phosphate free concentrated detergent/disinfectant which provides effective cleaning, deodorizing, disinfection, and sanitization. M102 detergent/disinfectant has been designed specifically for hospitals, nursing homes, schools, and other institutions where housekeeping is of prime importance in controlling the hazard of cross contamination.

M102 when diluted at the rate of 1 ounce per gallon of water is an effective disinfectant agent against the organism *Pseudomonas aeruginosa* and meets all requirements for hospital use. When used as directed, M102 is formulated to disinfect inanimate hard surfaces such as walls, floors, sink traps, toilet bowls, tables, chairs, telephones and bed frames. For larger areas such as operating rooms, patient care facilities and nurseries, the product is designed to provide both general cleaning and disinfecting.

In addition, M102 deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls and any other areas which are prone to odors caused by microorganisms.

DISINFECTION: At 1 ounce per gallon dilution, M102 exhibits effective disinfectant activity against the following:

Pseudomonas aeruginosa	PRO-10
Escherichia coli	<i>Bacillus amyloliquefaciens</i>
Klebsiella pneumoniae	<i>Streptococcus faecalis</i>
Salmonella schottmuelleri	<i>Shigella dysenteriae</i>
Salmonella choleraesuis	<i>Enterobacter aerogenes</i>
<i>Staphylococcus aureus</i>	<i>Staphylococcus epidermidis</i>
All this level the product is also fungicidal against the pathogenic fungal Trichophyton mentagrophytes	

VIRUCIDAL ACTIVITY: The product when used on environmental inanimate hard surfaces at 1 ounce per gallon of water exhibits effective "virocidal" activity against Influenza A2/Asian (representative of the common flu virus), Herpes simplex (causing agents of fever blisters and mononucleosis), Adeno virus type 3 (causative agent of upper respiratory infections), and Vaccine virus (representative of the polio virus).

EFFECTACY TESTS HAVE DEMONSTRATED THAT M102 IS AN EFFECTIVE BACTERCIDE, FUNGICIDE, AND VIRUCIDE IN THE PRESENCE OF ORGANIC B/S/L (5% BLOOD SERUM) MOLD AND MILDEWSTAT. M102 prevents and controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces.

STORAGE AND DISPOSAL

Pesticide:	Discard any excess pesticide by flushing down drain with large quantity of water.
Container:	Do not reuse empty container. Rinse empty container with water and put in trash collector.
